BANQUE POUR LE COMMERCE EXTERIEUR LAO PUBLIC

Report on BCEL's Business Performance

Financial statement for the first six months of the year 2024

Ended 30 June 2024

I. Overview of BCEL

1. Vision

BCEL revises its long-term strategy for 2021-2025, to align with the bank's development work plan and to attain its goals and objectives under the vision of **"Becoming a strong and modern bank with international standards".**

2. Mission

To realize its vision of becoming a strong and modern bank that meets international standards, BCEL is committed to enhancing customer service while adapting to evolving trends, maintaining financial strength, and preparing for Basel II compliance. The bank also prioritizes keeping its IT systems current and integrating new technologies to improve services, ensuring transparency and speed in its management information systems (MIS) while upholding international security standards. Furthermore, BCEL places significant emphasis on human resource development to enhance staff expertise and professionalism, thereby facilitating the bank's adaptability to changes and fostering continuous growth. Ultimately, the bank aims to enhance customer experience, generate sustainable profits, and create value for shareholders.

❖ **Plans and Projects for 2024**

In its pursuit to become the foremost bank in modern and international banking practices in the Lao PDR, BCEL has outlined comprehensive development strategies encompassing directions, goals, and detailed implementation plans for 2024. These strategies consist of 11 Plans and 39 Projects as follows:

● **Strategy 1: Organizational strengthening (5 Plans and 20 Projects)**

● **Strategy 2: Modernization, advanced technology, and innovation enhance the business operation. A step into the digital era of the economy (3 Plans and 14 Projects)**

- Development and Management of the IT System: 7 projects.
- Management Information System and the Development and Modernization of the Statistic System to meet the international standard: 5 projects.
- Developing the products to transform the digital banking services: 2 projects.

● **Strategy 3: Strengthen the governance and the international standard services (3 Plans and 5 Projects)**

- The Improvement of the Accounting System and the Reporting Standard: 3 projects.
- The Improvement of the Audit System to meet the International Standards: 2 projects.
- The Development of the PCI Compliance or Payment Card Industry Data Security Standard.

II. Financial Position and Highlights

1. Lao PDR' Economy and Future Trends

During the first six months of 2024, the gross domestic product (GDP) of the Lao PDR grew by 4.7%. This figure surpasses the National Assembly's annual target of 4.5%, amounting to 70,584 billion kip. Overall, it is revealed that the Lao economy is a stage of recovery, with several sectors focusing on accelerating production to address the government's economic

challenges. Additionally, the government has designated 2024 as "Visit Laos Year" and is hosting ASEAN meetings.

Although the Lao economy continues to recover moderately, its growth rate remains slow, and several challenges persist, such as increasing inflation, currency depreciation, rising oil prices, labor shortages, budget deficits and foreign debt payment obligations.

The economic outlook for the end of 2024 remains uncertain due to several factors that may impact growth. External factors include economic tensions among major economies, economic competition, fluctuation in the USD, and global oil price and gold price, all of which may affect the Lao economy. Internally, the fluctuation of the Lao kip will continue to impact the price of goods, while the inflation rate remains unstable. This risk will lead the higher production cost, posting a threat to small businesses that may struggle to survive, ultimately decreasing their competitiveness in the market.

1.1. Inflation rate

The inflation rate in June 2024 was 26.2%. Among the categories of goods with high inflation rates, health and medicine saw the highest increased at 41.7%, followed by restaurants and hotels at 35.3%. The category of housing, water, electricity, and fuel increased by 32.5%, clothing by 29.5%, and alcohol and cigarette by 28.8%. The category of food and non-alcoholic beverages increased by 23.7%.

The main causes of inflation during the first 6 months of the year are as follow: 1) the depreciation of the Lao kip (LAK), the LAK depreciated compared to foreign currencies such as the USD, THB and CNY, which are the main currencies used to pay for imported goods and services; 2) The domestic production base is not yet strong, and is mostly dependent on imported for consumer goods, raw materials, scientific equipment, and vegetables; 3) the value-added tax rate (VAT) was adjusted from 7% to 10%, contributing to the increase in the price of goods.

1.2. Exchange rate

In the second quarter of 2024, the Bank of the Lao PDR (BOL) continued to set the margin of the exchange rate of LAK against the USD ±7.50% compared to the reference exchange rate of BOL. The difference between the buying rate and the selling rate is not more than 2% for the LAK against the USD, THB, CNY, EUR, JPY and other currencies. For converting kip to other currencies, the difference between the buying rate and the selling rate does not exceed 5%. The LAK/USD and LAK/THB exchange rates continue to increase.

The average exchange rate of the banking system for the USD in the first 6 months of the year is 21,074 LAK/USD, an increase of 21% compared to the same period last year (from 17,395 LAK/USD). Meanwhile, the average exchange rate outside the system was 23,719 LAK/USD, an increase of 32% compared to the same period (from 17,908 LAK/USD). For the baht exchange rate, the average of 652 LAK/THB in the banking system increased by 26% (from 518 LAK/THB) compared to the same period, while the average exchange rate outside the system was 659 LAK/THB, an increase of about 25% (from 525 LAK/THB) (data from the Bank of the Lao PDR, foreign economic statistics). The depreciation of the kip continues to depreciate due to internal and external factors. However, in 2024, BOL will continue to conduct monetary policy in a more oriented direction and implement exchange rate policy according to the market mechanism with state management to be more oriented. Factors that make the LAK weak are because the economy of Laos is still in a fragile state, taking advantage of the market that sets the exchange rate higher than the limit set by the BOL, there is a lot of demand for foreign currency - the domestic production base is not strong, dependence on importing goods from abroad, etc. Therefore, when the LAK exchange rate continues to weaken or the foreign currency appreciates, it makes imported goods, including goods that are factors of production, more expensive.

2. Highlighted updates of BCEL

During the first six months of 2024, BCEL held 2 review meetings to summarize its activities (the 2023 annual meeting and 1/2024 quarterly meeting). The bank also held three Board of Directors meetings (one Ordinary Meeting and two Extraordinary Meetings), and the Annual General Shareholders' Meeting for the year 2023. Additionally, BCEL participated in the conference on promoting green finance (PROMOTING GREEN FINANCE IN ASEAN) and in the seminar titled: "Listed companies meet investors (**Opportunity Day**) for the year **2024**". BCEL also completed the summary of KPI implementation results for 2023 and set KPI targets for 2024. The bank arranged branches and service units for the year 2024 and completed the awarding of various awards related to work implementation ; the Bank completed the approval and disclosure of the annual financial statement report for 2023 according to Lao and international standards, audited by PWC; The audit section was expanded to branches that previously did not have one. Furthermore, discussions were held with the Lao Security Exchange regarding recent business operations and future plans.

Development of the systems and products: completed the development and launch of the Ezykip app; Launched a cross-border money transfer service from the Korea to Lao PDR through BCEL One app; Introduced Lao-Thai cross border payment service through QR Code; Implemented Unionpay QR payment service through BCEL One and launched BCEL VISA Corporate Cards. Also, the bank compledted the development and Go Live of the SWIFT ISO20022 system to improve the service system.

Service network: BCEL issued an agreement to upgrade the Vang Tao-Song Mek Money Exchange Unit to a service unit (Champasak branch); issued the decision to establish a service unit in Xai Moongkun under the Vientiane Capital City branch. In addition, to make the management of the service units more flexible and reduce operating expenses, the service units were resuffled within three branches in Vientiane Capital City according to the redistribution of responsibilities. The Xeno Money Exchange Unit was separated from the Utumphon Service Unit to the Service Section of the Savannakhet branch.

Cooperation: BCEL has signed a contract to connect the OnePay e-Commerce system with Duangdee Thavychuk Co.,Ltd; Review and renew the electronic wallet cooperation agreement of 2 companies: M-Money and U-Money and signed a Memorandum of Understanding (MOU) for cooperation to promote Thai investment in Lao PDR between BCEL and EXIM Bank.

Marketing: BCEL has initiated several marketing campaigns such as OnePay Cash back; Campaign VISA in Love; Deposit Heart Deposit Money to BCEL; Valentine's Day promotion; Women's Day promotion; 35 Years of Giving Good Things to You Promotion and launched Kids Savings Product.

In addition, BCEL also received 2 honorable awards: Best Issuing Member Award 2023 from the **UnionPay** International and the Best Tax Payer of the year 2022 by the Ministry of Finance.

3. Financial Highlights

As of the first 6 months of the year 2024, BCEL's financial highlights are as follows:

- Assets: 143,799,440 million LAK, surpassed the 2024 annual plan by 2% and registered an increase of 14% compared to the same period last year.
- Loans: 58,229,557 million LAK, achieved 98**%** of the 2024 annual plan and displayed a growth of 26% compared to the same period of last year.
- NPL rate: 2.85%.
- Deposits: 135,083,325 million LAK, exceeded the 2024 annual plan by 4% and increased by 14% compared to the same period of last year.
- Profit After Tax (Net): 224,936 million LAK, achieved 75% of the 2024 annual plan and increased by 120% compared to the same period of last year.

• History of BCEL

Banque pour le Commerce Exterieur Lao Public (BCEL) operates as a public company and is listed on the Lao Securities Exchange.

The bank was established in accordance with Decision on Bank Establishment No. 129/BOL dated 1 November 1989. On 23 December 2010, BCEL completed its initial public offering (IPO) and was renamed Banque Pour Le Commerce Exterieur Lao Public as per Enterprise Registration License No.0061/ERO dated 10 January 2011, issued by the Department of Enterprise Registration and Management, Ministry of Industry and Commerce of the Lao PDR. Initially, the Government, represented by the Ministry of Finance, held 80% of the total shares.

On 15 July 2011, the Ministry of Finance sold 10% of the total ordinary shares to its strategic partner, Compagnie Financière de la BRED (COFIBRED), a subsidiary of BRED, the largest banking society in the Banque Populaire Group—a French group of cooperative banks.

On 17 August 2017, BCEL successfully completed a recapitalization through public and rights offerings to existing shareholders, operating under the new Decision no. 21/BOL dated 13 September 2017, issued by the Bank of Lao PDR. By 15 September 2017, Lao Securities Exchange certified that BCEL increased its registered capital to 355,728,500,000 LAK (71,145,700 shares) as per certificate No. 01/LSX dated 15 September 2017. BCEL also received a new amended Business License no. 0429 dated 18 May 2018, issued by the Ministry of Industry & Commerce.

On 11 October 2019, the Lao Securities Commission Office granted BCEL permission to restructure its shareholder structure, offering more shares to the public and existing shareholders. This restructuring aimed to diversify shareholders, foster growth, and strengthen stability. The offering completion of 10% of BCEL's shares was endorsed by the Lao Securities Commission Office on 29 November 2019.

Currently, BCEL's shareholder structure comprises 60% government ownership, with domestic investors (including BCEL's employees) holding 30%, foreign investors holding 30%, and BCEL's strategic partner holding 10%.

BCEL's primary activities include providing banking services such as fund mobilization and deposit-taking for organizations and individuals on short-term, medium-term, and long-term bases. The bank also offers loans for short-term, medium-term, and long-term purposes to businesses and individuals based on lending capabilities and loan purposes. Additionally, BCEL engages in foreign exchange transactions, payment services, international trade services, bank guarantee services, precious metal trading, and other banking services permitted by the Bank of the Lao PDR, including insurance broker services.

❖ **Registered Capital**

The registered capital of BCEL as of 30 June 2024 is 1,038,617 million LAK (31 December 2023: 1,038,617 million LAK)

IV. The organizational structure of the Board of Directors, Management, and the operations of the committees supervised by the Board of Directors

1. The Structure and Profiles of the Board of Directors

1.1. The Board of Directors of BCEL

The Board of Directors of BCEL, as of 30 June 2024, consisted of 8 members as follows:

Name and surname	Position	Date of designation
Mr. Bounpone Vannachith	Chairman	27th April 2023
Mr. Ph.D Akhom Praseuth	Independent Director, Vice Chairman	29th April 2024
Mme. Saysamone Chanthachack	Director	22nd November 2022
Mr. Stephane Mangiavacca	Director	29th May 2020
Mr. Pasomphet Khamtanh	Director	3rd August 2021
Assoc.Prof. Mr. Thongphet Chanthanivong	Independent Director	3rd August 2021
Mrs. Latdavanh Songvilay	Independent Director	3rd August 2021
Mr. Sonexay Silaphet	Independent Director	3rd August 2021

❖ **Changing:** Because **Mr. Khamsouk Sundara**, an independent director and also the Vice Chairman of the Board of Directors (former) has held the position as an independent director of the Board of Directors in BCEL for many terms and completed the term allowed by the Article of Association of BCEL to hold the position (according to Article 32 of the Article of Association, the independent director must hold the position for no more than 4 consecutive terms). The Board of BCEL has researched the target of the candidate for the post in conjunction with the relevant higher-level authorities. The Bank of the Lao PDR and the Ministry of Finance have agreed to appoint **Mr. Ph.D Akhom Praseuth**, then director of the banking institution, to be the Vice Chairman of the Board Directors of BCEL replacing Mr. Khamsouk Sundara, while the other directors remained unchanged (the meeting of shareholders of BCEL for the year 2023 held on 29 April 2024 had a resolution to officially approve the appointment).

3. Operation of the Board of Directors and the Committees of the Board of Directors

3.1. The meetings of the Board of Directors

During the first six months of 2024, the Board of Directors held one ordinary meeting and two extraordinary meeting and approved some of the matters which are as follows.

- Acknowledged the operation of audit in the year 2023;
- Acknowledged the operation of accounting in the year 2023;
- Acknowledged the operation of risk management in the 1st quarter of the year 2024;
- Acknowledged the business performance report from time to time;
- Approved the appointment of the independent auditor for the year 2024 in order to propose to the shareholders' meeting;
- Approved the forms and methods for the evaluation of the Board of Directors, members of BOD and the relevant committees under the BOD for the year 2023 and 2024;
- Approved the plan for Board of Directors' meetings and the committee's meetings for the year 2024;
- Approved the business performance report of the year 2023 audited by an independent auditor which will be proposed to the shareholders' meeting;
- Approved the business plan for the year 2024 in order to propose to the shareholders' meeting for approval;

- Approved the allocation of profits for the year 2023 in order to propose to the shareholders' meeting;
- Approved the dividends payment plan for the year 2023 in order to propose to the shareholders' meeting;
- Approved the plan for the Annual General Meeting of the Shareholders of BCEL for year 2023
- Approved the appointment of the Committees of the Board of Directors
- Approved the appointment of the Lead Independent Director;
- Approved the appointment and relocation of some officers;
- Approved some loan applications subject to the approval authority of the Board of Directors for customers

3.2. Risk Management Committee

The committee has focused on supervising the research and development of regulations and policies regarding risk management. Additionally, it has approved policies and regulations related to risk management and has monitored the progress of the Basel 2 project, which has been underway since 2018. The Committee has continued its regular practice of holding meetings as stipulated by regulations. In the first 6 months of 2024, the Committee held one meeting where they discussed and acknowledged the report on the implementation of risk management and the Basel 2 project; Approved and announced using the policy of the Internal Capital Adequacy Assessment Process (ICAAP).

3.3. Nomination & Remuneration Committee

The Committee closely collaborated on the selection of senior officers and executives, as well as the organizational structure of BCEL's management periodically. Furthermore, it focused on amending the salaries and remuneration of BCEL's employees across all levels, up to the C-level, aligning with BCEL's policies and aiming to serve the best interests of BCEL and its shareholders. The Committee also conducted research on policies and regulations to be discussed in the upcoming shareholders' meeting. In the first six months of 2024, the Committee made some appointment and repositioning of deputy managing directors and some key managers at branches, divisions and centers within the organization.

3.4. Corporate Governance Committee

The Committee closely monitored the business performance of BCEL, particularly focusing on expanding the customer base for loans, addressing non-performing loans (NPLs), and overseeing treasury activities regularly. Additionally, the Committee has been actively tracking the bank's overall performance, the execution of the annual plan, long-term strategic plans, operational plans, and various projects. The Committee also prioritized human resource development initiatives. In the first 6 months of 2024, the Committee convened meetings to acknowledge the report on the business performance for the year 2023 and quarterly business performance for the beginning of the year 2024, discussed the plans for the year 2024, adopted the annual meeting plan and the evaluation form of the Board of Directors for the year 2024.

3.5. Audit Committee

The Audit Committee oversaw internal audit operations and policymaking, including selecting an independent audit firm and coordinating with authorized and state auditors. It also played a key role in addressing audit findings and implementing auditor recommendations. The Committee actively promoted BCEL's compliance with accounting principles and regularly monitored disclosure practices as per regulatory requirements. Meetings were conducted regularly as per BCEL's regulations. In the first 6 months of 2024, the Committee held one meeting and discussed the following:

- Acknowledged the audited financial report for the year 2023 by PwC, to be proposed to the Board of Directors;
- Approved the nomination of the independent auditor for the year 2024, to be further summitted to the Board of Directors;
- Acknowledged the periodical reports on the performance of Internal Audits and Accounting functions in BCEL. In the first six months of 2024, Internal Audit conducted routine audits on 4 entities across all Branches; 5 urgent audits on Sections and Service Units; 2 branch audits (Phonhong branch and Vangvieng branch); 51 command audits; and 83 urgent audits.

V. Corporate Social Responsibility

BCEL's management and staff have played a significant role Corporate Social Responsibility (CSR), an integral aspect of BCEL's core value, alongside business operations and other responsibility.

Utilizing BCEL's technological prowess and advancement, the company has developed a CRS product known as "BCEL OneHeart", serving as an intermediary platform for donations that facilitates support for both donors and recipients. In the first 6 months of 2024, BCEL recorded 1,756 donations via BCEL's OneHeart, totaling 83.53 million LAK.

Additionally, BCEL has been actively involved in supporting various sectors of society, including education, sports, healthcare, aid for victims of natural disasters, and participant in special national events through financial contributions and material support. During the first 6 months of 2024, BCEL's support extended to 67 event, with a cumulative amount of 572 million LAK allocated for these initiatives.

Banque Pour Le Commerce Exterieur Lao Public

GENERAL INFORMATION

THE BANK

Banque Pour Le Commerce Exterieur Lao Public (herein referred to as "the Bank") is a joint-stock bank incorporated and registered in the Lao People's Democratic Republic ("Lao PDR").

Establishment and Operations

The Bank was established from the equitization of Banque Pour Le Commerce Exterieur Lao which had been established in accordance with the Banking Business License No. 129/BOL dated 01 November 1989. On 23 December 2010, the Bank successfully undertook its Initial Public Offering. On 10 January 2011, the Bank was equitized and renamed into Banque Pour Le Commerce Exterieur Lao Public under the Operating License No. 0061/LRO dated 10 January 2011 issued by the Business License Registration Office of the Lao PDR. At that date, the Government, represented by the MOF, was the largest shareholder with 80% shareholding.

On 15 July 2011, the MOF sold 10% of the total ordinary shares (equivalent to 13,657,759 shares) to its strategic partner named Compagnie Financière de la BRED ("COFIBRED") in accordance with the Ordinary Shares Purchase Agreement between the Ministry of Finance and COFIBRED. COFIBRED is a subsidiary of BRED, the biggest regional banking society in the Banque Populare Group - a French group of cooperative banks. The total purchased price of LAK 150,235,349,000 has been paid fully by COFIBRED.

On 17 August 2017, Lao Securities Commission Office approved the Bank to recapitalize by both Rights offering (which resulted in 68.047.300 shares) and Public offering (which resulted in 3,098,400 shares) in Lao Securities Exchange in order to increase its charter capital. The Bank received the new Banking Business License No. 21/BOL, dated 13 September 2017 issued by the Bank of the Lao PDR. On 15 September 2017, Lao Securities Exchange certified that the Bank successfully increased its charter capital by an amount of LAK 355,728,500,000 (equivalent to 71,145,700 shares) in accordance with Listing Certificate No. 01/LSX, dated 15 September 2017 and its latest amended Business License No. 0429/ERO dated 18 May 2018 issued by Ministry of Industry and Commerce.

On 11 October 2019, Lao Securities Commission Office approved the Bank to recapitalized by both Rights offering and Public offering. The purpose of the government share divestment is to support more diverse shareholders to develop the Bank on the business expansion and sustainability. On 29 November 2019, Lao Securities Commission Office certified the Bank successfully offered 10% of the Bank's shares.

The shareholding structure of the Bank as at 30 June 2024 is as follows:

Shareholders	*Number of shares*	*%*
The Government	124,634,021	60%
Strategic partners	20,772,359	10%
Local investors (including employees of the Bank) and other foreign investors	62,316,920	30%
	207,723,300	**100%**

The principal activities of the Bank are to provide banking services including mobilizing and receiving short-term, medium-term, and long-term deposits from organizations and individuals; making short-term, medium-term, and long-term loans to organizations and individuals based on the nature and capability of the Bank's sources of capital; foreign exchange transactions, international trade financial services, discounting of commercial papers, bonds and other valuable papers, and providing other banking services allowed by Bank of the Lao PDR.

Charter Capital

The charter capital as at 30 June 2024 is LAKm 1,038,617 (31 December 2023: LAKm 1,038,617).

GENERAL INFORMATION (continued)

THE BANK (continued)

Location and Network

REPORT ON REVIEW OF SPECIAL PURPOSE INTERIM FINANCIAL STATEMENTS

To: Management of Banque Pour Le Commerce Exterieur Lao Public;
Bank of the Lao PDR; and
Laos Securities Commission Office

We have reviewed the Bank's special purpose interim financial statements which comprise the special purpose interim statement of financial position as at 30 June 2024, the special purpose interim income statements, special purpose interim statement of changes in equity and cash flows for the six-month period then ended, and notes to the special purpose interim financial statements, including a summary of significant accounting policies (collectively being referred to as "the special purpose interim financial statements").

Management's responsibility

Management is responsible for the preparation and presentation of these special purpose interim financial statements in accordance with the accounting policies as described in Note 4 and the statutory requirements relevant to the preparation and presentation of the special purpose interim financial statements, and for such internal control as management determines is necessary to enable the preparation and presentation of the special purpose interim financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' responsibility

Our responsibility is to express a conclusion on the interim financial statements based on our review. We conducted our review in accordance with International Standard on Review Engagements No. 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity".

A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying special purpose interim financial statements of the Bank for the six-month period ended 30 June 2024 are not prepared, in all material respects, in accordance with the accounting policies as described in Note 4 to the special purpose interim financial statements.

A member firm of Ernst & Young Global Limited

Building a better working world

Emphasis of matter - Accounting policies and Restriction of Distribution and Use

We draw attention to Note 4 to the special purpose interim financial statements, which describes the accounting policies adopted by the Bank. These Accounting policies are not intended to present the special purpose interim financial position, the special purpose interim result of operations and special purpose interim cash flows of the Bank in accordance with international generally accepted accounting principles. As also disclosed in Note 2 to the special purpose interim financial statements, the special purpose interim financial statements are prepared to assist the Bank's management in meeting the reporting requirements of regulators and its owner. As a result, the special purpose interim financial statements may not be suitable for another purpose. Our report is intended solely for the Bank's management, its owner and regulators and should not be distributed to or used by other parties.

Our conclusion is not modified in respect of these matters.

Other Matter

The special purpose interim financial statements of the Bank for the six-month period ended 30 June 2023 were reviewed by another firm which expressed an unmodified conclusion on those financial statements on 29 August 2023. In addition, the special purpose financial statements of the Bank as at 31 December 2023 were audited by this auditor who issued an unmodified opinion on those special purpose financial statements on 29 March 2024.

BANK OF THE LAO PDR
BANQUE POUR LE COMMERCE EXTERIEUR LAO PUBLIC
VIENTIANE CAPITAL

Vientiane, Lao PDR

30 August 2024

1. CORPORATE INFORMATION

Banque Pour Le Commerce Exterieur Lao Public ("the Bank") is a joint-stock bank incorporated and registered in the Lao People's Democratic Republic ("Lao PDR").

Establishment and Operations

The Bank was established from the equitization of Banque Pour Le Commerce Exterieur Lao which had been established in accordance with the Banking Business License No. 129/BOL dated 01 November 1989. On 23 December 2010, the Bank successfully undertook its Initial Public Offering. On 10 January 2011, the Bank was equitized and renamed into Banque Pour Le Commerce Exterieur Lao Public under the Operating License No. 0061/LRO dated 10 January 2011 issued by the Business License Registration Office of the Lao PDR. At that date, the Government, represented by the MOF, was the largest shareholder with 80% shareholding.

On 15 July 2011, the MOF sold 10% of the total ordinary shares (equivalent to 13,657,759 shares) to its strategic partner named Compagnie Financière de la BRED ("COFIBRED") in accordance with the Ordinary Shares Purchase Agreement between the Ministry of Finance and COFIBRED. COFIBRED is a subsidiary of BRED, the biggest regional banking society in the Banque Populare Group - a French group of cooperative banks. The total purchase price of LAK 150,235,349,000 has been paid fully by COFIBRED.

On 17 August 2017, Lao Securities Commission Office approved the Bank to recapitalize by both Rights offering (which resulted in 68,047,300 shares) and Public offering (which resulted in 3,098,400 shares) in Lao Securities Exchange in order to increase its charter capital. The Bank received the new Banking Business License No. 21/BOL, dated 13 September 2017 issued by Bank of the Lao PDR. On 15 September 2017, Lao Securities Exchange certified that the Bank successfully increased its charter capital by an amount of LAK 355,728,500,000 (equivalent to 71,145,700 shares) in accordance with Listing Certificate No. 01/LSX, dated 15 September 2017 and its latest amended Business License No. 0429/ERO dated 18 May 2018 issued by Ministry of Industry and Commerce.

On 11 October 2019, Lao Securities Commission Office approved the Bank to recapitalized by both Rights offering and Public offering. The purpose of the government share divestment is to support more diverse shareholders to develop the Bank on the business expansion and sustainability. On 29 November 2019, Lao Securities Commission Office certified the Bank successfully offered 10% of the Bank's shares.

The shareholding structure of the Bank as at 30 June 2024 is as follows:

Shareholders	*Number of shares*	*%*
The Government	124,634,021	60%
Strategic partners	20,772,359	10%
Local investors (including employees of the Bank) and other foreign investors	62,316,920	30%
	207,723,300	**100%**

The principal activities of the Bank are to provide banking services including mobilizing and receiving short-term, medium-term, and long-term deposits from organizations and individuals; making short-term, medium-term, and long-term loans to organizations and individuals based on the nature and capability of the Bank's sources of capital; foreign exchange transactions, international trade financial services, discounting of commercial papers, bonds and other valuable papers, and providing other banking services allowed by Bank of the Lao PDR.

1. CORPORATE INFORMATION (continued)

Charter Capital

The charter capital as at 30 June 2024 is LAKm 1,038,617 (31 December 2023: LAKm 1,038,617)

Location and Network

The Bank's Head Office is located at No. 01, Pangkham Street, Ban Xiengnheun, Chanthabouly District, Vientiane Capital, Lao PDR. As at 30 June 2024, the Bank has one (01) Head Office, six (6) associates and joint ventures, twenty (20) main branches, one hundred and one (101) services units, and twelve (12) exchange units all over Lao PDR.

Board of Directors

Members of the Board of Directors during the six-month period ended 30 June 2024 and at the date of this report are as follows:

Name	*Title*	*Date of appointment/resignation*
Mr. Bounpone Vannachit	Chairman	Appointed on 27 April 2023
Dr. Arkhomn Prasert	Vice Chairman	Appointed on 29 April 2024

Lao National Payment Network Company Limited	0349/ERO granted by the Department of Enterprise Registration and Management of the Ministry of Industry and Commerce of the Lao PDR on 12 March 2019	Settlement transaction management (Electronic)	20%

Employees

Total number of employees of the Bank as at 30 June 2024 is 2,108 persons (as at 31 December 2023: 2,075 persons).

2. BASIS OF PREPARATION

According to the Accounting Law No.46/NA dated 20 November 2023, public interest entities, including listed companies should apply International Financial Reporting Standards ("IFRS") in preparing their annual financial statements, starting from 2017. In accordance with the Official Letter No. 1137/MOF dated 27 April 2020 by the Ministry of Finance and 295/BOL dated 16 June 2021 issued by the BOL, commercial Banks are allowed to delay the application of IFRS until 1 January 2026. The management is presently preparing action plan for implementation IFRSs in accordance with announcement.

For the six-month period ended 30 June 2024, the Bank has prepared its special purpose interim financial statements in accordance with the accounting policies as set out in Note 4 to the financial statements. These accounting policies are not intended to present the financial position, results of operations and cash flows of the Bank in accordance with international generally accepted accounting principles.

The special purpose interim financial statements are prepared to meet the reporting requirements of the Bank's shareholders and the regulators and should not be distributed to or used by other parties.

The special purpose financial statements have been prepared on a historical cost basis, except as disclosed in other notes.

The Bank maintains its accounting records in Lao Kip ("LAK") which is the Bank functional currency and presents its special purpose interim financial statements in millions of LAK ("LAKm").

The Bank's fiscal year starts on 1 January and ends on 31 December.

3. PRESENTATION OF THE SPECIAL PURPOSE INTERIM FINANCIAL STATEMENTS

The Bank presents its interim statement of financial position in order of liquidity. Financial assets and financial liabilities are generally reported gross in the interim statement of financial position. They are only offset and reported net when, in addition to having an unconditional legally enforceable right to offset the recognized amounts without being contingent on a future event, the parties also intend to settle on a net basic in all of the following circumstances:

- The normal course of business;
- The event of default;
- The event of insolvency or bankruptcy of the Bank and/or its counterparties.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

4.1 Foreign currency translation

Transactions in foreign currencies are initially recorded at the spot rate of exchange ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at period end are translated into LAK at exchange rates ruling on the statement of financial position date (see list of exchange rates of applicable foreign currencies against LAK on 30 June 2024 as presented in Note 38. All foreign exchange differences are taken into "Net gain/(loss) from dealing in foreign currencies" in the income statement.

4.2 Financial instruments - initial recognition and subsequent measurement

The classification of financial instruments at initial recognition depends on their purpose and characteristics and the management's intention in acquiring them. All financial instruments are measured initially at their fair value plus transaction costs, except in the case of financial

4.2.1 Date of recognition

All financial assets and liabilities, with the exception of loans and advances to customers and balances due to customers, are initially recognized on the trade date, i.e., the date that the Bank becomes a party to the contractual provisions of the instrument. This includes "regular way trades" - purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the market place. Loans and advances to customers are recognised when funds are transferred to the customers' account. The Bank recognises due to customer balances when funds reach to the Bank.

4.2.2 Initial measurement of financial instruments

The classification of financial instruments at initial recognition depends on their purpose and characteristics and the management's intention in acquiring them. All financial instruments are measured initially at their fair value plus transaction costs, except in the case of financial assets and financial liabilities recorded at fair value through profit or loss

4.2.3 The effective interest rate method

Under IAS 39, interest income is recorded using the EIR method for all financial assets measured at amortised cost. Interest expense is also calculated using the EIR method for all financial liabilities held at amortised cost. The EIR is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset or liability or, when appropriate, a shorter period, to the gross carrying amount of the financial asset.

The EIR (and therefore, the amortised cost of the financial asset) is calculated by taking into account transaction costs and any discount or premium on the acquisition of the financial asset, as well as fees and costs that are an integral part of the EIR. The Bank recognises interest income using a rate of return that represents the best estimate of a constant rate of return over the expected life of the loan. Hence, the EIR calculation also takes into account the effect of potentially different interest rates that may be charged at various stages of the financial asset's expected life, and other characteristics of the product life cycle (including prepayments, penalty interest and charges).

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.2 Financial instruments - initial recognition and subsequent measurement (continued)

4.2.3 The effective interest rate method (continued)

If expectations of fixed rate financial assets or liabilities' cash flows are revised for reasons other than credit risk, then changes to future contractual cash flows are discounted at the original EIR with a consequential adjustment to the carrying amount. The difference from the previous carrying amount is booked as a positive or negative adjustment to the carrying amount of the financial asset or liability on the balance sheet with a corresponding increase or decrease in *Interest revenue/expense calculated using the effective interest method.*

For floating-rate financial instruments, periodic re-estimation of cash flows to reflect the movements in the market rates of interest also alters the effective interest rate, but when instruments were initially recognised at an amount equal to the principal, re-estimating the future interest payments does not significantly affect the carrying amount of the asset or the liability.

- 4.2.6 for 'Held-to-maturity financial investments'
- 4.2.7 for 'Due from banks and loans and advances to customers'
- 4.2.8 for 'Due to other banks and customers and other borrowed funds'
- 4.4 for 'Impairment of financial assets'
- 4.8 for 'Recognition of income and expenses'

4.2.4 'Day 1' profit or loss

When the transaction price differs from the fair value of other observable current market transactions in the same instrument, or based on a valuation technique whose variables include only data from observable markets, the Bank immediately recognises the difference between the transaction price and fair value (a 'Day 1' profit or loss) in 'Net gain from dealing in foreign currencies'. In cases where fair value is determined using data which is not observable, the difference between the transaction price and model value is only recognised in the income statement when the inputs become observable, or when the instrument is derecognised.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.2 Financial instruments - initial recognition and subsequent measurement (continued)

4.2.5 Available for sale financial investments

Available for sale investments include equity securities. Equity investments classified as available for sale are those which are neither classified as held for trading nor designated at fair value through profit or loss.

The Bank has not designated any loans or receivables as available for sale.

After initial measurement, available for sale financial investments are subsequently measured at fair value.

Unrealised gains and losses are recognized directly in equity (Other comprehensive income) in the 'Available-for-sale reserve'. When the investment is disposed of, the cumulative gain or loss previously recognized in equity is recognized in the interim income statement in 'Other operating income'. Where the Bank holds more than one investment in the same security, they are deemed to be disposed of on a first–in first–out basis. Dividends earned while holding available-for-sale financial investments are recognized in the interim income statement as 'Other operating income' when the right of the payment has been established. The losses arising from impairment of such investments are recognized in the interim income statement in 'Impairment losses on financial investments' and removed from the 'Available-for-sale reserve'.

4.2.6 Held-to-maturity financial investments

Held-to-maturity financial investments are non-derivative financial assets with fixed or determinable payments and fixed maturities, which the Bank has the intention and ability to hold to maturity. After initial measurement, held-to-maturity financial investments are subsequently measured at amortized cost using the EIR. Periodically, held-to-maturity securities are subject to review for impairment. Allowance for impairment of these securities is made when there has been a significant or prolonged declined in the fair value below their cost. The losses arising from impairment of such investments are recognized in the interim income statement line 'Impairment loss expense'.

If the Bank were to sell or reclassify more than an insignificant amount of held-to-maturity investments before maturity (other than in certain specific circumstances), the entire category would be tainted and would have to be reclassified as available-for-sale. Furthermore, the Bank would be prohibited from classifying any financial asset as held-to-maturity during the following two years.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.2 Financial instruments - initial recognition and subsequent measurement (continued)

4.2.7 Due from banks and loans and advances to customers

'Due from Banks' and 'Loans and advances to customers' and 'Held to maturity securities' include non-derivative financial assets with fixed or determinable payments that are not quoted in an active market, other than:

- Those that the Branch intends to sell immediately or in the near term and those that the Branch, upon initial recognition, designates as at fair value through profit or loss;
- Those that the Branch, upon initial recognition, designates as available-for-sale;
- Those for which the Branch may not recover substantially all of its initial investment, other than because of credit deterioration.

After initial measurement, amounts 'Due from Banks' and 'Loans and advances to customers' and 'Held to maturity securities' are subsequently measured at amortized cost using the EIR methodology, less allowance for impairment. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees and costs that are an integral part of the EIR. Therefore, the Branch recognises interest income using a rate of return that represents the best estimate of a constant rate of return over the expected behavioral life of the loan, hence, recognising the effect of potentially different interest rates charged at various stages, and other characteristics of the product life cycle (prepayments, penalty interest and charges).

If expectations are revised the adjustment is booked a positive or negative adjustment to the carrying amount in the balance sheet with an increase or reduction in interest income. The adjustment is subsequently amortised through Interest and similar income in the income statement.

The Bank may enter into certain lending commitments where the loan, on drawdown, is expected to be classified as held–for–trading because the intent is to sell the loans in the short term. These commitments to lend are recorded as derivatives and measured at fair value through profit or loss.

Where the loan, on drawdown, is expected to be retained by the Bank, and not sold in the short term, the commitment is recorded only when it is an onerous contract that is likely to give rise to a loss (for example, due to a counterparty credit event).

4.2.8 Due to other banks and customers and other borrowed funds

"Due to other banks and customers and other borrowed funds" include arrangements where the substance of the contractual arrangements result in the Bank having an obligation either to deliver cash or another financial asset to the holder.

After initial measurement, "Due to other banks and customers and other borrowed funds" are subsequently measured at amortised cost using the EIR. Amortised cost is calculated by taking into account any discount or premium on the issue and costs that are an integral part of the EIR.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.2 Financial instruments - initial recognition and subsequent measurement (continued)

4.2.9 Reclassification of financial assets

The Bank was permitted to reclassify, in certain circumstances, non-derivative financial assets out of the 'Held-for-trading' category and into the 'Available-for-sale', 'Loans and receivables', or 'Held-to-maturity' categories. From this date it was also permitted to reclassify, in certain circumstances, financial instruments out of the 'Available-for-sale' category and into the 'Loans and receivables' category. Reclassifications are recorded at fair value at the date of reclassification, which becomes the new amortized cost.

For a financial asset reclassified out of the 'Available-for-sale' category, any previous gain or loss on that asset that has been recognized in equity is amortized to profit or loss over the remaining life of the investment using the EIR. Any difference between the new amortized cost and the expected cash flows is also amortized over the remaining life of the asset using the EIR. If the asset is subsequently determined to be impaired then the amount recorded in equity is recycled to the income statement.

In rare circumstances, the Bank may reclassify a non-derivative trading asset out of the 'Held-for-trading' category and into the 'Loans and receivables' category if it meets the definition of loans and receivables and the Bank has the intention and ability to hold the financial asset for the foreseeable future or until maturity. If a financial asset is reclassified, and if the Bank subsequently increases its estimates of future cash receipts as a result of increased recoverability of those cash receipts, the effect of that increase is recognized as an adjustment to the EIR from the date of the change in estimate.

Reclassification is at the election of management, and is determined on an instrument by instrument basis.

4.3 De-recognition of financial assets and financial liabilities

4.3.1 Financial assets

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognised when the rights to receive cash flows from the asset have expired. The Bank also derecognises the assets if it has both transferred the asset, and the transfer qualifies for derecognition.

The Bank has transferred the asset if, and only if, either:

- The Bank has transferred its contractual rights to receive cash flows from the asset or
- It retains the rights to the cash flows, but has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass–through' arrangement.

Pass-through arrangements are transactions when the Bank retains the contractual rights to receive the cash flows of a financial asset (the 'original asset'), but assumes a contractual obligation to pay those cash flows to one or more entities (the 'eventual recipients'), when certain conditions are met. As at 30 June 2024, the Bank does not have financial assets which are subject to such arrangements.

A transfer only qualifies for derecognition if either:

- The Bank has transferred substantially all the risks and rewards of the asset or
- The Bank has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.3 De-recognition of financial assets and financial liabilities (continued)

4.3.1 Financial assets (continued)

In relation to the above, the Bank considers the control to be transferred if, and only if, the transferee has the practical ability to sell the asset in its entirety to an unrelated third party and is able to exercise that ability unilaterally and without needing to impose additional restrictions on the transfer.

When the Bank has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, and has neither transferred nor retained substantially all of the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Bank's continuing involvement in the asset. In that case, the Bank also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Bank has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Bank could be required to repay.

The Bank also derecognises a financial asset, in particular, a loan to customer when the terms and conditions have been renegotiated to the extent that it substantially became a new loan, with the difference recognised as an impairment in the interim income statement.

4.3.2 Financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a de-recognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid is recognized in profit or loss.

4.4 Impairment of financial assets

The Bank assesses at each reporting date, whether there is any objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated.

Evidence of impairment may include: indications that the borrower or a group of borrowers is experiencing significant financial difficulty; the probability that they will enter bankruptcy or other financial reorganization; default or delinquency in interest or principal payments; and where observable data indicates that there is a measurable decrease in the estimated future cash flows, such as changes in arrears or economic conditions that correlate with defaults.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.4 Impairment of financial assets (continued)

4.4.1 Financial assets carried at amortized cost

Specific impairment losses

For financial assets carried at amortised cost (such as amounts due from banks, loans and advances to customers), the Bank first assesses whether objective evidence of impairment exists for financial assets that are individually significant or are already under specific work out by management.

If there is objective evidence that an impairment loss has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future expected credit losses that have not yet been incurred). The carrying amount of the asset is reduced through the use of an allowance account and the amount of the loss is recognised in credit loss expense in the interim income statement. Interest income continues to be accrued on the reduced carrying amount and is accrued using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss. The interest income is recorded as part of interest and similar income.

Loans together with the associated allowance are written off when there is no realistic prospect of future recovery and all collateral has been realized or has been transferred to the Bank. If, in a subsequent year, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognized, the previously recognized impairment loss is increased or reduced by adjusting the allowance account. If a future write–off is later recovered, the recovery is credited to income.

The present value of the estimated future cash flows is discounted at the financial asset's original EIR. If a loan has a variable interest rate, the discount rate for measuring any impairment loss is the current EIR. If the Bank has reclassified trading assets to loans and advances, the discount rate for measuring any impairment loss is the new EIR determined at the reclassification date.

The calculation of the present value of the estimated future cash flows of a collateralised financial asset reflects the cash flows that may result from foreclosure less costs for obtaining and selling the collateral, whether or not foreclosure is probable.

Collective impairment model

For the purpose of a collective evaluation of impairment, financial assets are grouped on the basis of similar credit risk characteristics that are indicative of the debtors' ability to pay all amounts due according to the contractual terms (for example, on the basis of a credit risk evaluation or grading process that considers asset type, industry, geographical location, collateral type, past-due status and other relevant factors).

Future cash flows on a group of financial assets that are collectively evaluated for impairment are estimated on the basis of historical loss experience for assets with credit risk characteristics similar to those in the group. Historical loss experience is adjusted on the basis of current observable data to reflect the effects of current conditions on which the historical loss experience is based and to remove the effects of conditions in the historical period that do not currently exist.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.4 Impairment of financial assets (continued)

4.4.1 Financial assets carried at amortized cost (continued)

Estimates of changes in future cash flows reflect and are directionally consistent with changes in related observable data from period to period (such as changes in unemployment rates, personal indebtedness, collateral values including property prices for mortgages, commodity prices, payment status or other factors that are indicative of incurred losses in the group and their magnitude). The methodology and assumptions used for estimating future cash flows are reviewed regularly to reduce any differences between loss estimates and actual loss experience.

4.4.2 Impairment of available for sale investments

The Bank records impairment charges on available for sale equity investments when there has been a significant or prolonged decline in the fair value below their cost. The determination of what is 'significant' or 'prolonged' requires judgment. In making this judgment, the Bank evaluates, among other factors, historical share price movements and duration and extent to which the fair value of an investment is less than its cost.

4.4.3 Collateral valuation

The Bank seeks to use collateral, where possible, to mitigate its risks on financial assets. The collateral comes in various forms such as cash, securities, letters of credit/guarantees, real estate, receivables, inventories, other non-financial assets and credit enhancements such as netting agreements. The fair value of collateral is generally assessed at a minimum, at inception and based on the Bank's annually reporting schedule.

To the extent possible, the Bank uses active market data for valuing financial assets, held as collateral. Other financial assets which do not have a readily determinable market value are valued using models. Non-financial collateral, such as real estate, is valued based on data provided by third parties such as mortgage brokers, housing price indices, audited interim financial statements, and other independent sources.

4.4.4 Collateral repossessed

The Bank's policy is to determine whether a repossessed asset is best used for its internal operations or should be sold. Assets determined to be useful for the internal operations are transferred to their relevant asset category at the lower of their repossessed value or the carrying value of the original secured asset. Assets that are determined better to be sold, are immediately transferred to assets held for sale at their fair value at the repossession date in line with the Bank's policy.

4.5 Offsetting financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the interim statement of financial positions if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously. This is not generally the case with master netting agreements, and the related assets and liabilities are presented gross in the statement of financial position.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.6 Investment in associates and joint ventures

The Bank has interests in associates, which the Bank has significant influence but not control or joint control. Investments in associates are initial accounted at cost and subsequent measured using the equity method.

The Bank has interests in joint ventures, which are jointly controlled entities, whereby the ventures have a contractual arrangement that establishes joint control over the economic activities of the entities. The arrangement requires unanimous agreement for financial and operating decisions among the ventures. Investments in joint ventures are initial accounted at cost and subsequent measured using the equity method.

Under the equity method, the investment in a joint venture or associate is initially recognized at cost in the statement of financial position plus any adjustment to the net assets relatively to the percentage of the Bank's investment in the joint ventures or associate afterwards.

The Bank's share of profit of a joint venture or associate is shown on the face of the income statement. This is the profit attributable to equity holders of the joint venture or associate and, therefore, is profit after tax and non-controlling interest in the subsidiaries of the joint venture.

After application of the equity method, the Bank will determine whether it is necessary to recognize an additional impairment loss of the investments in its joint ventures and associates. The Bank determines at each reporting date whether there is objective evidence of impairment that the investment in the joint ventures and associates is impaired. In that circumstance, the Bank will calculate the amount of impairment as the difference between the recoverable amount and carrying value of the investments in the joint ventures and associates and recognize the difference in the special purpose interim income statement.

4.7 Recognition of income and expense

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Bank and the revenue can be reliably measured. The following specific recognition criteria must also be met before revenue is recognized.

4.7.1 Interest and similar income and expense

For all financial instruments measured at amortized cost, interest-bearing financial assets classified as available-for-sale and financial instruments designated at fair value through profit or loss, interest income or expense is recorded using the EIR. The calculation takes into account all contractual terms of the financial instrument (for example, prepayment options) and includes any fees or incremental costs that are directly attributable to the instrument and are an integral part of the EIR, but not future credit losses.

When the recorded value of a financial asset or a group of similar financial assets has been reduced by an impairment loss, interest income continues to be recognised using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.7 Recognition of income and expense (continued)

4.7.2 Fees and commission income (continued)

The Bank earns fee and commission income from a diverse range of financial services it provides to its customers. Fee and commission income is recognised at an amount that reflects the consideration to which the Bank expects to be entitled in exchange for providing the services. The performance obligations, as well as the timing of their satisfaction, are identified, and determined, at the inception of the contract. The Bank's revenue contracts do not typically include multiple performance obligations, as explained further in 4.7.2.1 and 4.7.2.2 below. When the Bank provides a service to its customers, consideration is invoiced and generally due immediately upon satisfaction of a service provided at a point in time or at the end of the contract period for a service provided over time (unless otherwise specified in 4.7.2.1 and 4.7.2.2 below). The Bank has generally concluded that it is the principal in its revenue arrangements because it typically controls the services before transferring them to the customer

4.7.2.1 Fee and commission income from services where performance obligations are satisfied over time

Performance obligations satisfied over time include asset management, custody and other services, where the customer simultaneously receives and consumes the benefits provided by the Bank's performance as the Bank performs.

4.7.2.2 Fee and commission income from providing services where performance obligations are satisfied at a point in time

Services provided where the Bank's performance obligations are satisfied at a point in time are recognized once control of the services is transferred to the customer. This is typically on completion of the underlying transaction or service or, for fees or components of fees that are linked to a certain performance, after fulfilling the corresponding performance criteria. These include fees and commissions arising from negotiating or participating in the negotiation of a transaction for a third party, such as the arrangement/participation or negotiation of the acquisition of shares or other securities, or the purchase or sale of businesses, brokerage and underwriting fees.

4.7.3 Dividend income

Dividend income is recognized when the Bank's right to receive the payment is established.

4.7.4 Net trading income

Results arising from trading activities include all gains and losses from changes in fair value and related interest income or expense and dividends for financial assets and financial liabilities 'held for trading'. This includes any ineffectiveness recorded in hedging transactions.

4.8 Cash and cash equivalents

Cash and cash equivalents as referred to in the statement of cash flows comprise cash on hand, non-restricted current accounts with the BOL and amounts due from banks on demand or with an original maturity of three months or less.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.9 Property and equipment

Property and equipment is stated at cost excluding the costs of day–to–day servicing, less accumulated depreciation and accumulated impairment in value. Changes in the expected useful life are accounted for by changing the amortization period or method, as appropriate, and treated as changes in accounting estimates.

Depreciation is calculated using the straight–line method to write down the cost of property and equipment to their residual values over their estimated useful lives. The following are annual rates used:

	Depreciation rate	Residual rate
Buildings & improvements	5%	1%
Office equipment	20%	1%
Furniture & fixtures	10-20%	1%
Motor vehicles	20%	1%

Property and equipment is derecognized on disposal or when no future economic benefits are expected from its use. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is recognized in 'Other operating income' in the interim income statement in the period the asset is derecognized.

4.10 Intangible assets

The Bank's other intangible assets include the value of land use rights and software.

An intangible asset is recognized only when its cost can be measured reliably and it is probable that the expected future economic benefits that are attributable to it will flow to the Bank.

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and any accumulated impairment losses.

The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are amortized over the useful economic life. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at each financial year–end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are accounted for by changing the amortization period or method, as appropriate, and they are treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the interim income statement in the expense category consistent with the function of the intangible asset.

Amortization is calculated using the straight–line method to write down the cost of intangible assets to their residual values over their estimated useful lives as follows:

	Depreciation rate	Residual rate
Land use rights (*)	No amortization	NA
Software	20%	1%

(*): Cost of land use rights is not amortized as they have indefinite life.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.11 Impairment of non-financial assets

The Bank assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Bank estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit (CGU)'s fair value less costs to sell and its value in use. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre–tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded subsidiaries or other available fair value indicators.

For assets excluding goodwill, an assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the Bank estimates the asset's or CGU's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceeds the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the interim income statement.

4.12 Financial guarantees

In the ordinary course of business, the Bank issues financial guarantees, consisting of letters of credit, guarantees and acceptances. Financial guarantees are initially recognized in the interim financial statements (within 'Other liabilities') at fair value, being the premium received. Subsequent to initial recognition, the Bank's liability under each guarantee is measured at the higher of the amount initially recognized less cumulative amortization recognized in the interim income statement, and the best estimate of expenditure required to settle any financial obligation arising as a result of the guarantee.

Any increase in the liability relating to financial guarantees is recorded in the interim income statement in 'Credit loss expense'. The premium received is recognized in the interim income statement in 'Net fees and commission income' on a straight line basis over the life of the guarantee.

4.13 Employee benefits

Post-employment benefits

Post-employment benefits are paid to retired employees of the Bank at the time of retirement by the amount equal to (Latest Basic Salary + Wage + 25% of allowance (If have) + 25% of other benefits) x 1,5 x working years.

The fund for Post-employment benefits come from:

(i) the retirement reserve contributed by the employees, for which the Bank withholds a certain monthly amount from employees' salary (5,5%) of the amount (Equal to Basic Salary + Wage + 25% of allowance + 25% of other benefits);
(ii) and the Bank contribution by monthly, which is equal to 6% of the amount (Equal to Basic Salary + Wage + 25% of allowance + 25% of other benefits).

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.14 Employee benefits (continued)

Post-employment benefits (continued)

The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method.

Remeasurements, comprising of actuarial gains and losses, excluding amounts included in net interest on the net defined benefit liability, are recognised immediately in the interim statement of financial position with a corresponding debit or credit to retained earnings through OCI in the period in which they occur. Remeasurements are not reclassified to profit or loss in subsequent periods.

Net interest is calculated by applying the discount rate to the net defined benefit liability or asset.

The Bank recognises the following changes in the net defined benefit obligation under 'Personnel expenses' in the statement of profit or loss:

- Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements, and
- Net interest expense or income

Termination benefits

In accordance with Article 82 of the Amended Labour Law No. 43/NA approved by the President of the Lao People's Democratic Republic on 28 January 2014, the Bank has the obligation to pay allowance for employees who are terminated by dismissal in the following cases:

- The worker lacks specialised skills or is not in good health and thus cannot continue to work;
- The employer considers it necessary to reduce the number of workers in order to improve the work within the labour unit.

For the termination of an employment contract on any of the above-mentioned grounds, the employer must pay a termination allowance which is calculated on the basis of 10% of the basic monthly salary earned before the termination of work. As at 30 June 2024, there is no employees of the Bank who were dismissed under the above-mentioned grounds, therefore the Bank has not made a provision for termination allowance in the interim financial statements.

4.15 Provisions

Provisions are recognized when the Bank has a present obligation (legal or constructive) as a result of a past event, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the effect of the time value of money is material, the Bank determines the level of provision by discounting the expected cash flows at a pre-tax rate reflecting the current rates specific to the liability. The expense relating to any provision is presented in the interim income statement net of any reimbursement in other operating expenses.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.16 Profit tax

Current tax

Current tax assets and liabilities for the current and prior years are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted, or substantively enacted, by the reporting date in the countries where the Bank operates and generates taxable income.

Current income tax relating to items recognised directly in equity is recognised in equity and not in the statement of profit or loss. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Deferred tax liabilities are recognized for all taxable temporary differences, except where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it becomes probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Current and deferred taxes are recognised as income tax benefits or expenses in the income statement except for tax related to the fair value remeasurement of available-for-sale assets, foreign exchange differences and the net movement on cash flow hedges, which are charged or credited to OCI. These exceptions are subsequently reclassified from OCI to the income statement together with the respective deferred loss or gain. The Bank also recognises the tax consequences of payments and issuing costs, related to financial instruments that are classified as equity, directly in equity.

The Bank only off-sets its deferred tax assets against liabilities when there is both a legal right to offset and it is the Bank's intention to settle on a net basis.

4.17 Fiduciary assets

The Bank provides trust and other fiduciary services that result in the holding or investing of assets on behalf of its clients. Assets held in a fiduciary capacity are not reported in the interim financial statements, as they are not the assets of the Bank.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

4.18 Equity reserves

The reserves recorded in equity on the Bank's interim statement of financial position include:

- Statutory reserves which are created in accordance with prevailing regulations of Lao PDR, as stated in Note 31.

5. SIGNIFICANT ACCOUNTING ESTIMATES AND ASSUMPTIONS

The preparation of the Bank's interim financial statements requires management to make estimates and assumptions that affect the reported amount of revenues, expenses, assets and liabilities, and the accompanying disclosures, as well as the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

In the process of applying the Bank's accounting policies, management has made the following judgements and assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year. Existing circumstances and assumptions about future developments may change due to circumstances beyond the Bank's control and are reflected in the assumptions if and when they occur. Items with the most significant effect on the amounts recognised in the interim financial statements with substantial management judgement and/or estimates are collated below with respect to judgements/estimates involved.

5. SIGNIFICANT ACCOUNTING ESTIMATES AND ASSUMPTIONS (continued)

5.1 Going concern

The Bank's management has made an assessment of its ability to continue as a going concern and is satisfied that it has the resources to continue in business for the foreseeable future. Furthermore, management is not aware of any material uncertainties that may cast significant doubt upon the Bank's ability to continue as a going concern. Therefore, the interim financial statements continue to be prepared on the going concern basis.

5.2 Effective Interest Rate method

The Bank's EIR methodology, as explained in Note 4.2.3, recognises interest income using a rate of return that represents the best estimate of a constant rate of return over the expected behavioural life of loans and deposits and recognises the effect of potentially different interest rates charged at various stages and other characteristics of the product life cycle (including prepayments and penalty interest and charges). This estimation, by nature, requires an element of judgement regarding the expected behaviour and life-cycle of the instruments, as well expected changes to other fee income/expense that are integral parts of the instrument.

5.3 Impairment losses on loans and advances

The Bank reviews its individually significant loans and advances at each reporting date to assess whether an impairment loss should be recorded in the interim income statement.

The Bank's impairment methodology for assets carried at amortised cost results in the recording of provisions for:

- Specific impairment losses on individually significant or specifically identified exposures;
- Collective impairment.

The detailed approach for each category is further explained in Note 4.4.1. All categories include an element of management's judgement, in particular for the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses. These estimates are driven by a number of factors, the changing of which can result in different levels of allowances.

5.4 Impairment of available-for-sale investments

The Bank reviews its debt securities classified as available-for-sale investments at each reporting date to assess whether they are impaired as explained in Note 4.4.2.

This assessment, including estimated future cash flows and other inputs in to the discounted cash flow model and in the case of equity instruments, the interpretation of what is 'significant' or 'prolonged' requires judgement. In making this judgement, the Bank evaluates, among other factors, historical share price movements, and the duration and extent to which the fair value of an investment is less than its cost.

5.5 Deferred tax assets

Deferred tax assets are recognised in respect of tax losses to the extent that it is probable that future taxable profit will be available against which the losses can be utilised. Judgement is required to determine the amount of deferred tax assets that can be recognised, based on the likely timing and level of future taxable profits, together with future tax-planning strategies.

6. NET INTEREST AND SIMILAR INCOME

	For the six-month period ended 30 June 2024 LAKm	*For the six-month period ended 30 June 2023 LAKm*
Interest income calculated using the effective interest method from:		
Lending to customers	1,347,669	1,626,791
Deposits at other banks	821,746	152,484

13. CASH AND BALANCES WITH THE BANK OF LAO PDR

	30 June 2024 LAKm	*31 December 2023 LAKm*
Cash on hand in LAK	2,905,171	2,343,586
Cash on hand in foreign currencies ("FC")	3,893,373	2,827,491
Balances with the BOL:		
- Demand deposit	11,937,977	15,450,480
- Compulsory deposit (*)	7,890,047	6,228,256
- Term deposit (**)	7,803,729	4,834,330
	34,430,297	**31,684,143**

Balances with the BOL include settlement and compulsory. These balances earn no interest.

(*) Under regulations of the BOL, the Bank is required to maintain certain reserves with the BOL in the form of compulsory deposits, which are computed at 8.00% for LAK and 10.00% for foreign currencies (2023: 8.00% for LAK and 10.00% for foreign currencies), on a bi-monthly basis, of customer deposits having original maturities of less than 12 months. During the period, the Bank maintained its compulsory deposits in compliance with the requirements by the BOL

(**) Details of term deposits with Bank of the Lao PDR by maturity date are as follows:

	30 June 2024 LAKm	*31 December 2023 LAKm*
Less than 1 month	-	1,000,142
3 to 6 months	4,951,295	1,916,475
6 to 9 months	1,374,193	1,277,829
9 to 12 months	1,478,241	639,884
	7,803,729	**4,834,330**

13. CASH AND BALANCES WITH THE BANK OF LAO PDR (continued)

Details of term deposits with Bank of the Lao PDR by interest rate are as follows:

	For the six-month period ended 30 June 2024 % per annum	*For the six-month period ended 30 June 2023 % per annum*
Less than 1 month	-	0.70%
3 to 6 months	2.00% - 4.50%	2.40%
6 to 9 months	2.59%	2.59%
9 to 12 months	3.14% - 5.00%	3.14%

14. DUE FROM BANKS

Ending balance	**79,212**	**63,216**

Net benefit expense (recognised in profit or loss):

	For the six-month period ended 30 June 2024 LAKm	*For the year ended 31 December 2023 LAKm*
Current service cost	2,070	3,146
Interest cost	2,701	4,080
	4,771	**7,226**

29. CHARTER CAPITAL

There has been no change to paid-up capital during the six-month period then ended 30 June 2024.

30. STATUTORY RESERVES AND OTHER RESERVES

	Regulatory reserve fund LAKm	*Business expansion fund LAKm*	*Total LAKm*
As at 1 January 2024	238,214	673,487	911,701
Appropriation to reserves for the year 2023	30,544	212,583	243,127
As at 30 June 2024	**268,758**	**886,070**	**1,154,828**

Under the requirement of the Law on Commercial Bank dated 16 January 2007, commercial banks are required to appropriate net profit to following reserves:

- Regulatory reserve fund
- Business expansion fund and other funds

In accordance with Article 156, Enterprise Law dated 26 December 2013, the Bank is required to appropriate 10% of profit after tax each year into regulatory reserve fund, after deducting its accumulated losses, if any. When this reserve fund reaches 50% of the registered capital, the Bank may suspend such provision, unless otherwise provided by the by laws.

The Business expansion fund and other funds shall be created upon decision of the Board of Management.

31. ADDITIONAL CASH FLOW INFORMATION

Cash and cash equivalents included in the interim statement of cash flows comprise the following Interim statement of financial position amounts:

	30 June 2024 LAKm	*31 December 2023 LAKm*
Cash and cash equivalents on hand	6,798,544	5,717,078
Demand deposits with the BOL	11,937,977	15,450,480
Current accounts with other banks	11,798,023	11,804,977
Term deposits due within 3 months	7,456,586	5,166,610
	37,991,130	**37,593,145**

32. CONTINGENT LIABILITIES AND COMMITMENTS

	30 June 2024 LAKm	*31 December 2023 LAKm*
Commitments for financing given to other banks	9,905,633	8,711,150
Commitments for financing given to other banks	104,933	36,000
Bank guarantees	1,682,933	1,816,363
Collaterals and mortgages for loans	72,267,889	60,083,507
Collaterals and mortgages for guarantees given	246,771	238,279
	84,208,159	**70,885,299**

Letter of credit and bank guarantees

Letters of credit (including standby letters of credit) and bank guarantees commit the Bank to make payments on behalf of customers contingent upon the failure of the customer to perform under the terms of the contract. Guarantees and standby letters of credit carry the same credit risks as loans. Credit guarantees can be in the form of bills of exchange or in the form of irrevocable letters of credit, advance payment guarantees, and endorsement liabilities from bills discounted.

Un-drawn commitments to lend

Commitments to extend credit represent contractual commitments to make loans and revolving credits. Commitments generally have fixed expiry dates, or other termination clauses. Since commitments may expire without being drawn upon, the total contract amounts do not necessarily represent future cash requirements.

However, the potential credit loss is less than the total unused commitments since most commitments to extend credit are contingent upon customers maintaining specific standards. The Bank monitors the term to maturity of credit commitments because longer-term commitments generally have a greater degree of credit risk than shorter-term commitments.

Lease commitments

As at 30 June 2024, the Bank did not entered into any lease contracts as either lessor or lessee which results in future cash inflows and/or outflows.

33. RELATED PARTY DISCLOSURES

Related party transactions include all transactions undertaken with other parties to which the Bank is related. A party is related to the Bank if:

(a) directly, or indirectly through one or more intermediaries, the party:

- controls, is controlled by, or is under common control with, the Bank (this includes parent, subsidiaries and fellow subsidiaries);
- has an interest in the Bank that gives it significant influence over the Bank; or
- has joint control over the Bank.

(b) the party is a joint venture in which the Bank is a venture;

(c) the party is a member of the key management personnel of the Bank or its parent;

(d) the party is a close member of the family of any individual referred to in (a) or (c);

(e) the party is an entity that is controlled, jointly controlled or significantly influenced by, or for which significant voting power in such entity resides with, directly or indirectly, any individual referred to in (c) or (d); or

(f) the party is a post-employment benefit plan for the benefit of employees of the Bank, or of any entity that is a related party of the Bank.

Remuneration to members of the key Management was as follows:

	For the six-month period ended 30 June 2024 LAKm	*For the six-month period ended 30 June 2023 LAKm*
Salaries	1,040	*948*
Bonus	290	*39*
Responsibility allowance	658	*484*
	1,988	***1,471***

		Net change in Term deposits	50,311	-

(i) Direct controller
(ii) Direct owner
(iii) Joint venture

34. EARNINGS PER SHARE

Earnings per share ("EPS") is calculated by dividing net profit after tax for the period attributable to ordinary shareholders of the Bank by the weighted average number of ordinary share outstanding during the period.

The following reflects the income and share data used in the earnings per share computation.

	For the six-month period ended 30 June 2024	*For the six-month period ended 30 June 2023*
Profit after tax attributable to ordinary equity holders for basic earnings (LAKm)	224,936	102,022
Weighted average number of ordinary shares for basic earnings per share (shares)	207,723,300	207,723,300
Earnings per share (LAK)	1,083	491

35. RISK MANAGEMENT POLICIES

Introduction

Risk is inherent in the Bank's activities but is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. This process of risk management is critical to the Bank's continuing profitability and each individual within the Bank is accountable for the risk exposures relating to his or her responsibilities.

The primary objective of the Bank in risk management is to comply with the BOL regulations. On the other hand, the Bank has recognized the importance of meeting international best practices on risk management. The Board of Directors and Board of Management, with support from an Asset and Liability Management Committee, are in process to formulate broad parameters of acceptable risk for the Bank and monitor the activities against these parameters.

The Board has appointed Asset and Liability Management Committee which has the responsibility to monitor the overall risk process within the Bank.

The Bank is exposed to credit risk, liquidity risk and market risk, the latter being subdivided into trading and non-trading risks. It is also subject to various operating risks.

The independent risk control process does not include business risks such as changes in the environment, technology and industry. The Bank's policy is to monitor those business risks through the Bank's strategic planning process.

Risk management structure

The Board of Directors is responsible for the overall risk management approach and for approving the risk management strategies and principles.

The Asset and Liability Management Committee has the overall responsibility for the development of the risk strategy and implementing principles, frameworks, policies and limits. The Risk-Compliance Department is responsible for managing risk decisions and monitoring risk levels and reports to the Board of Directors.

The Bank's policy is that risk management processes throughout the Bank are audited annually by the Internal Audit function, which examines both the adequacy of the procedures and the Bank's compliance with the procedures. Internal Audit discusses the results of all assessments with management, and reports its findings and recommendations to the Audit Committee.

36. FAIR VALUE OF FINANCIAL ASSETS AND LIABILITIES

Fair value represents the amount at which an asset could be exchanged or a liability settled on an arms-length basis. As verifiable market prices are not available, market prices are not available for a significant proportion of the Bank's financial assets and liabilities, fair values, therefore, have been based on management assumptions according to the profile of the asset and liability base. In the opinion of the Bank's management, except for bonds issued by the Ministry of Finance, bonds issued by and borrowings from the BOL, the carrying amount of the financial assets and liabilities included in the Interim statement of financial position are a reasonable estimation of their fair values. In making this assessment, the Bank's management assumes that loans are mainly held to maturity with fair values equal to the book value of loans adjusted for allowance for impairment losses.

37. EVENTS AFTER THE REPORTING DATE

There is no matter or circumstance that has arisen since 30 June 2024 that requires adjustment or disclosure in the special purpose interim financial statements of the Bank.

38. EXCHANGE RATES OF APPLICABLE FOREIGN CURRENCIES AGAINST LAK AT PERIOD END
