

EDL-Gen Representatives Participate in Granting Funds For a Community Development Project

On November 15, 2025, representatives from EDL-Generation Public Company (EDL-Gen) participated in granting funds to support a community development project at Ban Phouchang, Xiengnguen District, Luang Prabang Province.

Phouchang Village is one of the resettlement villages of the Nam Khan 2 Hydropower Project. The purpose of this fund grant is to support the repair of the village's water supply system, which is a critical factor for the livelihood of the people

§ EDL-Gen Representatives: Led by Mr. Siliphom Sengonkeo, Deputy Managing Director (COO).

§ Dam Representatives: Mr. SomChai SiChanthalath, Director of Nam Khan 2-3 Hydropower Plant.

§ Total Fund Support Value: 74,800,000 Kip.

EDL-Gen considers Corporate Social Responsibility (CSR) as part of the organization's strategy.

Our mission is not limited to electricity generation alone, but also includes improving the quality of life of communities surrounding our projects.

This support for water supply system repairs reaffirms EDL-Gen's commitment to ensuring that communities have solid infrastructure, especially access to clean water, which is fundamental to health and better living conditions for the people in our resettlement villages.
