INDEPENDENT AUDITOR'S REPORT

To the Board of Directors and Shareholders of Petroleum Trading Lao Public Company

Our opinion

In our opinion, the financial statements of Petroleum Trading Lao Public Company (the Company) are prepared, in all material respects, in accordance with accounting policies described in Note 2 to the financial statements.

What we have audited

The Company's financial statements comprise:

- the statement of financial position as at 31 December 2021;
- the statement of income for the year then ended;
- the statement of changes in equity for the year then ended;
- the statement of cash flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial statements* section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Company in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants (IESBA Code). We have fulfilled our other ethical responsibilities in accordance with the IESBA Code.

Emphasis of Matter - Basis of accounting

We draw attention to Note 2 to the financial statements, which describes the basis of accounting. The financial statements have been prepared in accordance with the Company's accounting policies which the accounting basis used in the preparation of these financial statements may differ from International Financial Reporting Standards (IFRS). The readers should therefore be aware that the accompanying financial statements are not intended to present the financial position and its financial performance and cash flows in accordance with IFRS. Our opinion is not modified in respect to this matter.

pwc

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. We determine one key audit matter: Revenue recognition for wholesale income. The matter was addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on the matter.

Key audit matter	How our audit addressed the key audit matter
Revenue recognition for wholesale income Refer to Note 2.14 'Accounting policies – Revenue recognition' and Note 18 'Sales' to the consolidated financial statements. The Group's revenue comprises both wholesale and retail fuel and lubricant revenue with wholesale revenue representing the majority. Various lead times and conditions of the Groups wholesale business directly affects the correctness of revenue recognition due to timing differences. Time gaps in billing and delivery processes led to high risk for recognition completeness and cut-off, particularly for wholesale petroleum for which recording and actual delivery impacts revenue recognition timing. We focused on this area as billing cycle periods may not necessarily coincide with year-end closing, so revenue recognition requires Group management estimation.	We performed the following procedures: • Evaluated and tested the relevant controls over the revenue and receivables processes to ensure billing and other relevant supporting systems were reliable and change control procedures were in place around those systems. • Tested samples of individual and corporate customer invoices to the authorisation of review and approval prior to record in the general ledger. • Tested end-to-end reconciliations of the sales report and the general ledger, including testing adjustment transaction records against the underlying documents related to revenue. • Performed substantive testing on revenue cut-off testing by selected revenue samples prior to and after year end to test whether they are completely recorded in appropriate timing, based on terms and conditions set out in sales invoices and delivery documents. • Tested samples of revenue transactions for each type of income incurred during the year by agreeing the revenue transactions with invoices and other related supporting documents. From these procedures, we found that Group management estimation regarding revenue recognition was in line with the accounting policy and available evidence.

pwc

Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditor's report thereon. The annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to the audit committee.

Responsibilities of the board of directors and audit committee for the financial statements

The directors are responsible for the preparation of the financial statements in accordance with accounting policies described in Note 2 to the financial statements, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The audit committee assists the directors in discharging their responsibilities for overseeing the Company's financial reporting process.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

pwc

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

We communicate with the audit committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the audit committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the audit committee, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

1 General information

Petroleum Trading Lao Public Company (the Company) is a listed company in the Lao Securities Exchange and incorporated and resident in Lao PDR. The Company was incorporated and registered with the Ministry of Industry and Commerce on 3 October 2008.

The Company's head office is located at Kamphaeng Mueang Street, Phonthan village, Xaysettha district, Vientiane capital, Lao PDR.

The Company invested 99% of interest in Petrotrade Import-Export Company Limited and Petrotrade Distribution Company Limited as the same.

The principal activities of the Company are holding company and to provide service of Plus Card.

These financial statements were authorised by the board of directors on 27 April 2022.

2 Accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below:

2.1 Basis of preparation

The accompanying financial statements have been prepared in accordance with the Company's principal accounting policies as described below and have been prepared generally under the historical cost convention.

According to the Accounting Law no. 47/NA issued on 26 December 2013, Public Interest Enterprises (PIEs) are required to apply International Financial Reporting Standards (IFRS). However, Ministry of Finance has issued announcement No. 1137/MoF issued on 27 April 2020 and from Lao Securities and Exchange Commission Office (LSCO) dated 25 May 2020, which provided options for PIEs to prepare action plan for adoption IFRS within four-year period. The management is presently preparing action plan for implementation IFRS in accordance with the announcement.

Therefore, the accounting principles applied may differ from IFRS. The accompanying financial statements are not intended to present the financial position and financial performance in accordance with other jurisdictions. Consequently, these financial statements are addressed only to those who are informed on the Company's accounting policy.

The preparation of financial statements requires management to make estimates and assumptions that affect the reported assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the revenues and expenses in the reported periods. Although these estimates are based on management's knowledge of current events and actions, actual results may materially differ from those estimates.

The Company presents the separate financial statements for the year ended 31 December 2021 and 2020, this is in accordance with the reporting and disclosure regulation No.007/SECO, dated 3 April 2014 issued by Lao Securities and Exchange Commission Office.

2. Accounting policies (continued)

2.2 Investment in subsidiaries

Subsidiaries are all entities (including structured entities) over which the Company has control.

The Company controls an entity when the Company is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns though its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Company. They are deconsolidated from the date that control ceases.

In the financial statements, investments in subsidiaries is accounted for at cost less impairment.

2.3 Foreign currency translation

Items included in the financial statements are presented in Lao Kip (LAK).

Foreign currency transactions are translated into LAK using the exchange rates prevailing at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currency are translated into LAK at the prevailing at the reporting dates. All resulting foreign exchange gains and losses differences unrealised from the translation of monetary assets and liabilities denominated in foreign currency are recognised in the statements of financial position and will be reversed in the next fiscal year.

The realised gains and losses from the settlement of foreign currency transaction is recognised into the statement of income when payment.

The exchange rated used are from local reputation bank in Lao PDR.

2.4 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, deposits held at call with banks or other short-term highly liquid investments with original maturities of three months or less.

2. Accounting policies (continued)

2.5 Trade receivable

Trade receivable are carried at the original invoice amount and subsequently measured at the remaining amount less any allowance for doubtful receivables based on a review of all outstanding amounts at the year-end. The amount of the allowance is the difference between the carrying amount of the receivable and the amount expected to be collectible. Bad debts are written-off during the year in which they are identified and recognised in profit or loss within administrative expenses.

The following policy on the allowance for receivables impairment from third parties are applied as follow:

From 6 months to 1 year	30%
From 1 to 2 years	50%
Above 2 years	100%

No provision made on outstanding balances of loan to related parties, trade receivables and other receivables from related parties.

2.6 Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined by the weighted average method. The cost of purchase comprises both the purchase price and costs directly attributable to the acquisition of the inventory, such as import duties and transportation charges, less all attributable discounts, allowances. The cost of finished goods comprises design costs, raw materials, direct labour, other direct costs and related production overheads based on normal operating capacity. It excludes borrowing costs. Net realisable value is the estimate of the selling price in the ordinary course of business, less applicable variable selling expenses. Allowance is made, where necessary, for obsolete, slow-moving and defective inventories.

2. Accounting policies (continued)

2.7 Investment properties

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the Company, is classified as investment property. Investment property also includes property that is being constructed or developed for future use as investment property.

Land held and accounted for by the Company as investment property when the rest of the definition of investment property is met.

Investment property is measured initially at its cost, including related transaction costs

Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognised.

After initial recognition, investment property is carried at cost less any accumulated depreciation and any accumulated impairment losses.

Land is not depreciated. Depreciation on other investment properties is calculated using the straight-line method to allocate their cost to their residual values over their estimated useful lives, as follows:

Buildings and renovation	7 -10 years

2.8 Property, plant and equipment

All property, plant and equipment are stated at historical cost less accumulated depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised.

All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred. Land is not depreciated. Depreciation on other assets is calculated using the straight-line method to allocate their cost to their residual values over their estimated useful lives, as follows:

Buildings and renovation	5 - 30 years
Machinery and equipment	2 - 10 years
Vehicle	5 years
Office equipment	2-10 years

Gains or losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised within 'other gains/(losses) – net' in the statement of income.

2. **Accounting policies** (continued)

2.9 Intangible assets

Intangible assets consist of computer software. Acquired computer software licenses are capitalised in the basis of the costs incurred to acquire and bring to use the specific software. These costs are amortised over their estimated useful life, which does not exceed 2-10 years. Cost associated with remaining computer software programs are recognised as expense as incurred.

2.10 Borrowings

Borrowings are recognised initially at the drawdown value. Borrowing cost consist of interest and other cost that the Company incurs in connection with the borrowing of funds. Borrowing cost for general purpose are recorded as expenses during the year in which they are incurred.

Borrowing cost that are directly attributable to the acquisition, construction or production of asset that necessarily take a substantial period of time to get ready for its intended use or sale are capitalised as cost of respective of asset.

Borrowing arrangement fee are recognise as pre-paid expenses and amortised into statements of income over the borrowing period.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the end of reporting date.

2.11 Lease

Leases - where the Company is the lessee

Leases not transferring a significant portion of the risks and rewards of ownership to the lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to the statement of income on a straight-line basis over the period of the lease.

When an operating lease is terminated before the lease period has expired, any payment required to be made to the lessor by way of penalty is recognised as an expense in the period in which termination takes place.

Leases of property, plant or equipment where the lessee has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the inception of the lease at the lower of the book value of the leased property.

Each lease payment is allocated between the liability and finance charges so as to achieve a constant rate on the liabilities balance outstanding. The corresponding rental obligations, net of finance charges, are included in other long-term payables. The interest element of the finance cost is charged to profit or loss over the lease period so as to achieve a constant periodic rate of interest on the remaining balance of the liability for each period. The property, plant or equipment acquired under finance leases is depreciated over the shorter period of the useful life of the asset and the lease term.

2. Accounting policies (continued)

2.11 Lease (continued)

Leases - where the Company is the lessor

Assets leased out under operating leases are included in property, plant and equipment in the statement of financial position. They are depreciated over their expected useful lives. Rental income (net of any incentives given to lessees) is recognised on a straight-line basis over the lease term.

2.12 Taxation

The Company records income tax on an accrual basis. The Company does not recognise corporate income tax payable or receivable in future periods in respect of temporary differences. Income tax expense is recognised based on the operating result for the year after adjusted non-deductible expenses and other transactions under the related Lao Tax Law and tax rate. Under Lao Tax Law, Lao Accounting Law and related privileges as a listed Company, tax expenses for the year are determined on the basis of the profit the Company calculated (Note 21).

In Lao PDR, income tax returns are regularly reviewed in detail by the relevant authorities. In addition, tax issues raised in the reviews may require substantive judgements and interpretation by the parties concerned. The reviews could therefore potentially result in additional tax payments or refunds being necessary which may be significant. This would result in the payment or refund being recognised as income tax expense in the year in which the reviews are completed.

2.13 Share capital

Ordinary shares and non-redeemable preference shares with discretionary dividends are classified as equity.

The share premium us recognise upon issuance od addition shares, at a surplus between the offering price of additional share issuance and the par value, after deduction of share issuance cost (such as underwriting fees and other relevant valuation, consulting costs).

In accordance with guidance under the Letter No.056/LSCO issued by LSCO on 28 April 2015, the Company was allowed to distribute 75% of share premium from the Company's initial offering after deduction of relevant share issuance costs, to the founding shareholders of the Company.

2. Accounting policies (continued)

2.14 Revenue recognition

Revenue comprises the invoice value of goods sold net of rebates and discounts. Revenue from the sale of goods is recognised when the significant risks and rewards of ownership of the goods are transferred or delivered to the buyer.

Revenue from rental is recognised on a straight-line basis over the lease term.

Other income is recognised on the following basis:

- Interest income is recognised on a time-proportion basis, taking into account the principal outstanding and interest rate over the period to maturity, when it determined that such income will be accrued to maturity, when it is determined that such income will be accrued to the Company.
- Other income is recognised on an accrual basis.

3. Significant events during the current period

The COVID-19 pandemic developed rapidly in 2021, with a significant number of infections worldwide. Measures taken by various governments to contain the virus have affected economic activity in Lao PDR, while the level of infection within Laos has remained low.

The Company is continuing to operate the business and having implemented a robust set of protocols to monitor and prevent the possible spread of the COVID-19 virus in the Company. The Company will continue to follow the various national policies and advice and maintain the COVID-19 protocols put in place in December 2021 for the foreseeable future.

The management are confident that we will be able to ensure the sustained financial viability of the Company during these difficult times. Management also ensures that there is no significant impact to the financial statements of the Company for the year ended 31 December 2021.

	7,723,853,028	**12,598,429,298**

*This represents the outstanding accrual of tax payables according to the tax assessment by the Tax Authorities dated 27 December 2019.

Tax Authorities have reviewed and issued the memo on obligation of tax expenses for the year 2014 to 2017 amount of LAK 20,835,576,105. In addition, Tax Authorities mentioned in the memo that the Company may have obligation for penalty payables for the year 2014 to 2017 amount to LAK 7,417,484,961 which is not yet finalised and need to seek a final opinion from the Ministry of Finance.

13. Tax payables (continued)

Management recorded tax expenses amount of LAK 20,835,576,105 to the financial statements of the year ended 31 December 2019, and the outstanding payables as at 31 December 2021 is LAK 7,000,000,000 (2020: LAK 10,819,907,816).

The Company received the memo from the Tax Authorities per reference no.0210 dated 28 January 2020, a portion of obligation for the penalty payables for the year 2014 to 2017 amount of LAK 964,759,679 allowed for exemption. Thus, as of 31 December 2021, the Company has such obligation for penalty payables which is not yet finalised and need to seek a final opinion from the Ministry of Finance amount of LAK6,452,725,282 (2020: LAK 6,452,725,282)

In the meantime, management is requesting for the exemption on the penalty from Tax Authorities. Because of uncertainty of the amount of penalty, management considered not to record penalty payables amount to LAK 6,452,725,282 (2020: LAK6,452,725,282) to the financial statements.
As of the reporting date, it is in the process of reviewing by the Tax Authorities.

14. Borrowings

Transportation expenses	10,671,000	534,255,426
Tax expenses	137,889,090	211,245,254
	18,656,755,512	**20,909,877,054**

21. Income tax expenses

According to the tax privileges given to the listed companies, The Company is entitled to a further reduction profit tax from 24% to 19% during the initial four years period. This rate is to be applied from 2015 to 2018. For 2019 accordance to Tax Law, the Company applied profit tax rate 24%.

According to the Tax Law No. 259 effective on 1 January 2020, the Company calculated Profit Tax on its net taxable income at the rate of 20% (2020: 20%) after considering the non-deductible income and expenses was in accordance with the Lao Tax Law.

22. Basic earnings (loss) per share

Basic earnings (loss) per share is calculated by dividing the net profit attributable to shareholders by the weighted average number of ordinary shares in issue during the year.

	2021	2020
Net profit/(loss) attributable to ordinary shareholders (LAK)	(43,158,193,946)	(34,394,290,287)
Weighted average number of ordinary shares In issue (shares)	235,000,000	235,000,000
Basic earnings (loss) per share (LAK)	(184)	(146)

23. Related-party transactions

Individuals and entities that directly or indirectly control or are controlled by or are under common control with the Company, including investment entities and individuals or entities having significant influence over the Company, key management personnel, including directors and officers of the Company and close members of the family of these individuals and entities associated with these individuals also constitute related parties.

In considering each possible related-party relationship, attention is directed to the substance of the relationship, and not merely the legal form.

The following significant transactions were carried out with related parties:

23.1 Sales of goods and services
