INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDERS AND BOARD OF DIRECTORS OF PHOUSY CONSTRUCTION AND DEVELOPMENT PUBLIC COMPANY

Our opinion

In our opinion, the financial statements of Phousy Construction and Development Public Company (the Company) are prepared, in all material respects, in accordance with the accounting policies described in Note 2 to the financial statements.

What we have audited

The Company's financial statements comprise:

- the statement of financial position as at 31 December 2021;
- the statement of income for the year then ended;
- the statement of changes in equity for the year then ended;
- the statement of cash flows for the year then ended; and
- the notes to the financial statements, which include significant accounting policies and other explanatory information.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Company in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants (IESBA Code). We have fulfilled our other ethical responsibilities in accordance with the IESBA Code.

Emphasis of Matter - Basis of accounting

We draw attention to Note 2 to the financial statements, which describes the basis of accounting. The financial statements have been prepared in accordance with the Company's accounting policies which the accounting basis used in the preparation of these financial statements may differ from International Financial Reporting Standards (IFRSs). The readers should therefore be aware that the accompanying financial statements are not intended to present the financial position and its financial performance and cash flows in accordance with IFRSs. Our opinion is not modified in respect to this matter.

pwc

Key audit Matter

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the current period. We determine one key audit matter: Allowance for doubtful account receivables. The matter was addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on the matter.

Key audit matter	How our audit addressed the key audit matter
Allowance for doubtful account receivables *Refer to Note 2.4 'Accounting policies – Trade and other receivables' and Note 5 ' Trade and other receivables' to the financial statements.* As at 31 December 2021, trade receivables – Government of Lao PDR (GoL), who is only one customer of the Company, has balance amounted LAK 314,994 million less allowance for doubtful account receivables of LAK 297,010 million which represents 47 % the total assets in the financial statements, as resulting in net book value of LAK 17,984 million. The payment term depends on annual budget of GoL. During the year, GoL has limited their budget as a result payment during the year just LAK 11,761 million until reporting date. This affects to the working capital. Currently, the Company has in process of negotiating new payment terms with GoL. Management considers toset up an allowance based on the recoverable amount for conservative purpose. The recoverable amount was estimated by reference to the aging profile, historical payment pattern. We focus on this area as the trade accounts receivable was significant to the financial statements, and the allowance was based on management's judgement in evaluating the situation and condition of trade accounts receivable to consider the collectability of the Company.	Our key procedures include the following: • Inquired management about the method used as well as the assumptions made and understood the management's process and policy for setting up allowance for doubtful accounts; • Tested the accuracy of aging of trade receivables at year end on a sample basis; • Checked supporting documents such us certification of work completion that accepted by GoL to ensure that GoL has accepted the progress of work; • Assessed the recoverability of the unsettled recoverable on samples basis through our evaluation of management's assessment with reference to the credit profile of the customer, historical payment pattern of the customer, publicly availability information and latest correspondence with the customer and to reconsider if any additional provision should be made; and • Tested subsequent settlements of trade receivables after balance sheet date on sample basis, if any. Based upon the above procedures performed, we satisfied ourselves that management had taken reasonable judgements that were materially supported by the available evidence in respect of the relevant receivable balances. We did not encounter any issues through these audit procedures that indicated that provisioning in respect of trade receivables was inappropriate.

pwc

Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our auditor's report thereon. The annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion upon them.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to the audit committee.

Responsibilities of the directors and audit committee for the financial statements

The directors are responsible for the preparation and presentation of the financial statements in accordance with accounting policies described in Note 2 to the financial statements, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The audit committee assists the directors in discharging their responsibilities for overseeing the Company's financial reporting process.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

pwc

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

We communicate with the audit committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the audit committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the audit committee, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The accompanying notes on pages 9 to 21 from an integral part of these financial statements.

1. General information

Phousy Construction and Development Public Company is a public company. The address of the Company's registered office is at Continental Plaza Hotel, Nongbuathong-Tai Village, Sikhottabong District, Vientiane Capital, Lao PDR.

The principal businesses of the Company are construct, repair and maintenance road, bridge and others. There is only one customer which is Government of Lao PDR (GoL).

The Company was listed on the Lao Securities Exchange (LSX) market on 10 October 2017.

These financial statements were authorised for issue by managing director on 25 March 2022.

2. Accounting policies

The principal accounting policies applied in the preparation of the financial statements are set out below:

2.1 Basis of preparation

The accompanying financial statements have been prepared in accordance with the Company's principal accounting policies as described below and have been prepared generally under the historical cost convention.

According to the Accounting Law no. 47/NA issued on 26 December 2013, Public Interest Enterprises (PIEs) are required to apply IFRSs. However, Ministry of Finance has issued announcement No. 1137/MoF issued on 27 April 2020 and from Lao Securities and Exchange Commission Office (LSCO) dated 25 May 2020, which provided options for PIEs to prepare action plan for adoption IFRSs within four-year period. The management is presently preparing action plan for implementation IFRSs in accordance with the announcement. The accounting principles applied may materially differ from International Financial Reporting Standards (IFRSs).

The preparation of financial statements requires management to make estimates and assumptions that affect the reported assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the revenues and expenses in the reported periods. Although these estimates are based on management's knowledge of current events and actions, actual results may materially differ from those estimates.

Going concern assumption

The Company incurred a net loss of LAK 13,895 million during the financial year ended 31 December 2021 (2020: loss LAK 57,942 million) and the net current asset presents negative LAK 21,373 million. The related parties issued confirmation letters to the Company that will not call borrowing and balance payable as at 31 December 2021, total LAK 60,283 million within the next 12 months starting from 31 December 2021.

Therefore, these financial statements are prepared on going concern basis.

2. Accounting policies (Continued)

2.2 Foreign currency transactions

Items included in the financial statements are recorded using Lao Kip ("LAK").

Foreign currency transactions are translated into LAK using the exchange rates prevailing at the dates of the transactions. Monetary assets and liabilities denominated in foreign currency are translated into LAK at the exchange rates prevailing at the balance sheet dates. Gains and losses resulting from the settlement of foreign currency transactions and from the translation of monetary assets and liabilities denominated in foreign currencies are recognised in the statement of income.

2.3 Cash and cash equivalents

Cash and cash equivalents include cash in hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less and bank overdrafts. In the statement of financial position, bank overdrafts are shown within borrowings in current liabilities, if any.

2.4 Trade and other receivables

Trade accounts receivable are carried at the original invoice amount and subsequently measured at the remaining amount less any allowance for doubtful receivables based on a review of all outstanding amounts at the year-end. Management consider provision for allowance for doubtful account when the outstanding balance is over 3 years.

No provision made on outstanding balances of loan to related parties, trade and receivables and other receivables from related parties.

2.5 Inventories

Inventories are stated at the lower of the purchase cost and net realisable value. The cost is determined using the weighted average method. The purchase cost comprises both the purchase price and costs directly attributable to the acquisition of the inventory, such as import duties and transportation charges, less all attributable discounts, allowances or rebates from suppliers. Net realisable value is the price at which the inventories can be realised in the normal course of business after allowing for the costs of realisation. Allowance is made, where necessary, for obsolete, slow-moving and defective inventories.

2.6 Investment securities

2.6.1 Held-to-maturity securities

Held-to-maturity investment are debt securities with fixed or determinable payments and maturities, which the Company has intention and ability to hold to maturity to earn interest. When they are sold before maturity date, these securities will be reclassified as trading securities or available-for-sale securities.

2. Accounting policies (Continued)

2.6 Investment securities (Continued)

2.6.1 Held-to-maturity securities (Continued)

Held-to-maturity securities are initially recognised at cost and subsequently presented at cost. Premiums and discounts arising from securities purchases are amortised in the statement of income using the straight-line method over the year from the acquisition dates to the maturity dates.

Periodically, the held-to-maturity securities are subject to review for impairment. Provision for impairment of these securities is made when there has been a significant or prolonged decline in the value below their cost. Provision for impairment is recognised as "Net gain/(loss) from securities investment" in the statement of income.

2.7 Property, plant and equipment

All other property, plant and equipment are stated at historical cost less accumulated depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to statement of income during the financial period in which they are incurred.

Land is not depreciated. Depreciation on other assets is calculated using the straight-line method to their residual values over their estimated useful lives, as follows:

Asset types	Years
Building	10
Vehicle	10
Office equipment	5
Furniture and fixture	5

Gains or losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised within 'Other (losses)/gains – net' in statement of income.

2.8 Borrowings

Borrowings are recognised initially at cash proceed received.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

All borrowing costs are recognised in statement of income in the period in which they are incurred.

2. Accounting policies (Continued)

2.9 Revenue recognition

Revenue comprises the invoice value net of rebates and discounts, if any. Revenue from the construction and services are recognised when the goods or services are transferred or delivered and accepted by the buyer.

Other income is recognised on the following basis:

- Interest income is recognised on a time-proportion basis, taking into account the principal outstanding and interest rate over the period to maturity, when it is determined that such income will be accrued to the Company.
- Other income is recognised on an accrual basis.

2.10 Taxation

The Company records corporate income tax on an accrual basis. The Company does not recognise corporate income tax payable or receivable in future periods for temporary differences. Profit tax is calculated by revenue from construction within a year multiplied with gross profit ratio and multiplied with profit tax rate (Note 18). The profit tax will off-set when Government of Laos make payment to the Company.

In Lao PDR, income tax returns are reviewed in details by the relevant authorities on a regular basis. Tax issues raised during the reviews may require judgments and interpretations by the relevant authority. Tax reviews may result in additional tax payments or refunds as necessary. Such additional payment or refund is recognised as income tax expenses in the year in which the reviews are completed.

2.11 Provisions

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation, and the amount has been reliably estimated, except for the provision for employee benefits as described in Note 2.12.

2.12 Employee benefits

According to the Lao Labor Law, when staff retire and meet the certain criteria as mentioned in Lao Labor Law. Therefore, the Company has obligation to pay to the staff for retirement expenses.

Provisions for employee benefits are not accrued in each year. The liability recognised in the statement of financial position and related expenses are recognised in the income statement based on actual amount due at the time of employees retire.

3. Significant events during the current year

The COVID-19 infections in Laos increased significantly during April 2021 leading to the lockdown of Vientiane Capital and all provinces of Laos. This significant increase of infections is described as the second wave where stricter measures taken by various governments to contain the virus have affected the economic activity.

Management reviewed the effect from those events to their business, according to Lao environment which number of inflections is limited and can be controlled then this issue has not affect to their business. Management considered that there is no significant effect from Covid-19.

Management will continue to monitor the ongoing development and regularly assess the financial impact in respect for the valuation of assets, provisions and contingent liabilities.

4. Cash and cash equivalents

	2021 Million LAK	2020 Million LAK
Cash on hand	79	18
Deposits held at call with financial institutions	97	70
	176	**88**

Cash on hand includes petty cash for day to day operation.

Deposits held at call with financial institutions represents cash deposited with reputable local banks in currencies, US dollars, Thai baht and Lao kip in current accounts with none interest.
