REPORT OF MANAGEMENT

Management of Lao Culture Tourism Public Group Company ("the Company") is pleased to present its report and the Company's interim separate financial statements for the six-month period ended 30 June 2025.

MANAGEMENT'S RESPONSIBILITY IN RESPECT OF THE INTERIM SEPARATE FINANCIAL STATEMENTS

Management is responsible for the preparation of the interim separate financial statements which have been prepared in accordance with the accounting policies as described in Note 3 to the interim separate financial statements. These accounting policies are not intended to present the interim separate financial position, the interim results of operations and interim cash flows of the Company in accordance with international generally accepted accounting principles. In preparing those interim separate financial statements, management is required to:

- select suitable accounting policies and then apply them consistently;
- make judgement and estimates that are reasonable and prudent;
- state whether applicable accounting policies have been followed, subject to any material departures disclosed and explained in the interim separate financial statements; and
- prepare the interim separate financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue its business.

Management is responsible for ensuring that proper accounting records are kept which disclose, with reasonable accuracy at any time, the interim separate financial position of the Company and for ensuring that the accounting records comply with the accounting policies applied. It is also responsible for safeguarding the assets of the Company and thus for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Management confirmed that it has complied with the above requirements in preparing the accompanying interim separate financial statements.

STATEMENT BY MANAGEMENT

Management does hereby state that, in its opinion, the accompanying interim separate financial statements are prepared, in all material respects, in accordance with the accounting policies as described in Note 3 to the interim separate financial statements.

REPORT ON REVIEW OF INTERIM SEPARATE FINANCIAL STATEMENTS

To: The Shareholders of Lao Culture Tourism Public Group Company

We have reviewed the accompanying interim separate statement of financial position of Lao Culture Tourism Public Group Company ("the Company") as of 30 June 2025 and the related interim separate statement of profit or loss, changes in equity and cash flows for the six-month period then ended, and a summary of significant accounting policies and other explanatory notes, as set out on pages 6 to 32.

Management is responsible for the preparation and presentation of these interim separate financial statements in accordance with the accounting policies as described in Note 3 to the interim separate financial statements. Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with International Standards on Review Engagements 2410, *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis for Disclaimer Conclusion

As disclosed in Note 2 to the separate financial statements, the Company incurred a net loss of LAK 13.55 billion for the six-month period ended 30 June 2025. And as of that date, the Company had accumulated losses of LAK 93.40 billion and its current liabilities of LAK 98.23 billion also exceeded its current assets by LAK 50.93 billion. These conditions indicate the existence of a material uncertainty which may cast significant doubt about the Company's ability to continue as a going concern. The separate financial statements for the six-month period ended 30 June 2025 are prepared on going concern basis based on the assumption that the Company has sufficient resources for the settlement of its liabilities to third parties and for the operations to continue in the following year without curtailment. The Company's management has prepared a cashflow forecast to support the settlement and operation plan, primarily on the basis of their expectation of financial support to be received from its shareholders and related parties and proceeds from disposal of its current available assets. Based on current available information, we are unable to obtain sufficient appropriate evidence to verify assumption made by the Company's management in preparation of the above cashflow forecast. Accordingly, we are unable to satisfy ourselves as to the appropriateness of the use of going concern assumption in the preparation of these separate financial statements for the six-month period ended 30 June 2025.

Disclaimer Conclusion

Our review indicates that, because of the significance of the matters discussed in the Basis for Disclaimer Conclusion paragraph, these interim separate financial statements are not prepared, in all material respects, in accordance with the accounting policies as described in Note 3 to the interim separate financial statements.

Emphasis of Matters – Accounting Policies

We draw attention to note 3 to the interim separate financial statements, which describes the accounting policies adopted by the Company. These accounting policies are not intended to present the interim separate financial position, the interim separate results of operations and the interim separate cash flows of the Company in accordance with international generally accepted accounting principles.

Our conclusion is not modified in respect of this matters.

2. BASIS OF PREPARATION

According to the Accounting Law No.46/NA dated 20 November 2023, public interest entities, including listed companies should apply International Financial Reporting Standards ("IFRS") in preparing their annual financial statements, starting from 2017. In accordance with the Official Letter No. 1137/MOF dated 27 April 2020 by the Ministry of Finance, public interest entities are allowed to delay the application of IFRS until 1 January 2026.

For the six-month period ended 30 June 2025, the Company has prepared its interim separate financial statements in accordance with the accounting policies as set out in Note 3 to the interim separate financial statements. These accounting policies are not intended to present the interim separate financial position, interim separate results of operations and interim separate cash flows of the Company in accordance with international generally accepted accounting principles.

The interim separate financial statements of the Company have been prepared using the historical cost convention. These interim separate financial statements are expressed in Lao Kip ("LAK") as it is the currency in which the majority of the Company's transaction are denominated and settled.

As at 31 December 2024, the cumulative inflation rate in Lao PDR over the past 36 months has exceeded 100%, categorizing the country as a hyperinflationary economy, according to the BOL report (https://www.bol.gov.la/en/inflation). As of 30 June 2025, the cumulative inflation rate over the past 36 months declined to 74%, however, to determine whether a currency **ceases to be** hyperinflationary required trends and subsequent review up to the end of 2025. As a consequence, the Company has not implemented any accounting policies to address the effects of hyperinflation due to the absence of specific guidance from Lao Financial Reporting Standards ("FRS") and the Ministry of Finance ("MOF") on this matter.

Going concern assumption

The Company incurred a net loss of LAK 13.55 billion for the six-month period ended 30 June 2025. As at this date, the Company's accumulated losses of LAK 93.40 billion exceeded contributed charter capital by LAK 73.40 billion, and the Company's current liabilities also exceeded its current assets by LAK 50.93 billion. On 25 August 2020, the Company published Announcement No.202/LCC about temporarily ceasing all production until further notice. The Company has modified the principal business activities in accordance with the new investment license No. 119.2023/MPI dated on 02 May 2023, which is issued by the Ministry of Planning and Investment. The principal activities of the Company change from production, wholesale and retail of cement and other related cement products to provide service on tourism (inbound-outbound) and construction of condominium for sale. These conditions indicate that a material uncertainty exists that may cast significant doubt about the Company's ability to continue as a going concern.

The Company's management has prepared a cash flow forecast to support the settlement and operation plan for the next 12 months, which was made primarily on the basis of their expectation of (i) financial support to be received from its shareholders and related parties; and (ii) proceeds from disposal of its current available fixed assets i.e. being cement production factory and real estate property. Particularly, the Company's management obtained financial support letter from Yunnan Hengshi Chengrui Holdings Co., Ltd., the major shareholder of the Company, which stipulated its agreement to provide all necessary financial support to ensure that the Company will have sufficient resources to settle its liabilities when they fall due in the following financial year without curtailment. On this basis, the management considers it as appropriate to prepare the Company's separate financial statements on the going concern basis.

Accordingly, the separate financial statements do not include any adjustments that may be necessary if the Company is unable to continue as a going concern.

Fiscal year

The Company's fiscal year starts on 1 January and ends on 31 December

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation.

The cost of a property, plant and equipment purchased by the Company consists of its purchase price and any directly attributable costs of bringing the asset to working condition for its intended use. Expenditures for additions, improvements and renewals are capitalized while expenditures for maintenance and repairs are charged to the interim separate income statement.

When an item of property, plant and equipment is sold or retired, their cost and accumulated depreciation are removed from the interim separate balance sheet and any gain or loss resulting from their disposal is included in the other operating income or expense accounts, respectively, in the interim separate income statement.

Construction in progress represents assets under construction. This includes the costs of construction and other directly attributable costs.

Fully depreciated assets are retained in the accounts until they are no longer in use and no further depreciation are recognized in the interim separate income statement.

Depreciation

Depreciation of property, plant and equipment is calculated on a straight-line basis over the expected useful life of the assets as follows:

Buildings and structures	5 to 20 years
Machinery and equipment	5 years
Means of transportation	5 years
Leasehold improvement	5 to 10 years
Office equipment	5 to 10 years
Others	10 years

The useful life of leasehold improvement is determined based on management estimates on expected usage and might be different with the lease term.

Depreciation on property, plant and equipment acquired or disposed of during the period is provided for on a pro-rata basis with reference to the month of acquisition or disposal. No depreciation is provided for assets under construction until such time that the relevant assets are completed and put into use.

Intangible assets

Intangible fixed assets consist of computer software and land use right. The cost of the software comprises its purchase price plus any directly attributable costs of bringing the software to working condition for its intended use.

Land use rights with indefinite term of use and are stated at cost. The cost of land use rights, which comprise the purchase price and any directly attributable costs, is not amortized.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Construction in Progress

Construction in progress represents the costs of acquiring new assets that have not yet been fully installed or the costs of construction that have not yet been fully completed. Construction in progress is stated at cost, which includes all necessary costs to construct, repair, renovate, expand, or re-equip the projects with technologies, such as construction costs, tools and equipment costs, project management costs, construction consulting costs, and borrowing costs that are eligible for capitalization.

Construction in progress will be transferred to the appropriate fixed asset account when these assets are fully installed or the construction project is fully completed, and depreciation of these assets will commence when they are ready for their intended use.

Construction costs are recognized as expenses when such costs do not meet the conditions to be recognized as fixed assets.

Leases

The determination of whether an arrangement is a lease, or contains a lease, is based on the substance of the arrangement and requires an assessment of whether the fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset.

The Company as a lessee

Leases, where all the risks and benefits of ownership of the leased items are not transferred substantially to the Company are operating leases. Operating lease payments are recognized as an expense in the profit or loss on a straight-line basis over the lease term. Contingent rental payable is recognized as an expense in the period in which they are incurred.

Inventories

Inventories are stated at the lower of cost incurred in bringing each product to its present location and condition, and net realisable value.

Net realisable value represents the estimated selling price in the ordinary course of business less the estimated costs to complete and the estimated costs necessary to make the sale.

The periodic method is used to record inventories, which are valued as follows:

Raw materials, consumables, tools and supplies	-	Cost of purchase on a weighted average cost basis.
Work-in-progress and Finished goods	-	Cost of direct materials and labour plus attributable manufacturing overheads based on the normal operating capacity on a weighted average cost basis.

Inventory property

Property acquired and being constructed for sale in the ordinary course of business, rather than to be held for rental or capital appreciation, is held as inventory property and is measured at the lower of cost and net realisable value (NRV).

Principally, this is residential property that the Company develops and intends to sell before, or on completion of development.

Cost incurred in bringing each property to its present location and condition includes:

- Amounts paid to contractors for development
- Planning and design costs, costs of site preparation, professional fees for legal services, development overheads and other related costs

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Inventory property (continued)

is the estimated selling price in the ordinary course of the business, based on market prices at the reporting date, less estimated costs of completion and the estimate costs necessary to make the sale.

When an inventory property is sold, the carrying amount of the property is recognised as an expense in the period in which the related revenue is recognised. The carrying amount of inventory property recognised in profit or loss is determined with reference to the directly attributable costs incurred on the property sold and an allocation of any other related costs bases on the relative size of the property sold.

Provision for obsolete inventories

Provision for obsolete inventories is the estimated loss arising due to the impairment in value (through diminution, damage, obsolescence, etc.) of inventories based on appropriate evidence of impairment available at the interim balance sheet date.

Increases and decreases to the provision balance are recorded into the other operating expenses for additional provision and in the other operating income for reversal of provision in interim separate income statement.

Investments in subsidiaries

Subsidiaries are all entities (including structured entities) over which the Company has control. The Company controls an entity when the company is exposed to, or has rights to, variable returns though its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the company. They are deconsolidated from the date that control ceases.

Intercompany transactions, balances and unrealised gains or loss on transactions between the Company and its subsidiaries are eliminated. A list of the company's subsidiaries is shown in note 7.

In the interim separate financial statements, investments in subsidiaries are accounted at cost.

Trade receivables and provision for doubtful accounts

Trade receivables are stated net of total gross trade receivables and provision for doubtful accounts.

The Company provides allowance for doubtful accounts for trade receivables based on consideration of historical data and the overdue age of the receivables as follows:

Overdue period	*Provision rate*
6 months to 1 year	30%
From 1 year to 2 years	50%
More than 2 years	100%

Increases or decreases to the provision balance are recorded as "Other operating expenses" or "Other operating income" respectively in the interim separate financial statements.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Cash

Cash comprises cash on hand and cash in banks.

Borrowing costs

Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds. Borrowing costs are recorded as expenses during the year in which they are incurred.

Trade payables, accrued expenses and other payables

Payables and accruals are recognized for amounts to be paid in the future for goods and services received, whether or not billed to the Company.

Contributed capital

Contributed capital is recognized in the interim separate balance sheet when cash is collected from the shareholders in the case of cash contribution or when there is approval from shareholders in the case of contribution in-kind, and share certificate is issued. Any unpaid capital based on Article of Association, enterprise and tax licenses is not recognized in the interim separate balance sheet.

Share premium reserve

The share premium is recognized upon issuance of additional shares, at a surplus between the offering price of additional share issuance and the par value, after deduction of share issuance cost (such as underwriting fees and other relevant valuation, consulting costs).

Reserves

Under the requirement of Enterprise Law no. 33/NA dated 29 November 2022, public companies are required to appropriate net profit to legal reserve fund.

The legal reserve fund is a fund to secure against risks, which is ten percent (10%) of its net profit into the reserve fund, after deducting its accumulated losses. When the legal reserve reaches one-half of the contributed charter capital, the Company may suspend the conversion of profit to such fund, unless otherwise approved by the Company's owners.

Other reserve funds including welfare fund reserve and plant expansion reserve which are appropriated from retained earnings in accordance with the Article of Incorporation of the Company dated 15 December 1998. The appropriation amount is determined by the Company's Board of Directors on an annual basis.

Reserve funds of current period are appropriated from net profit of prior years upon the approval of the Annual General Meeting of Shareholders.

Foreign currencies

The interim separate financial statements are presented in LAK which is the Company's functional and presentation currency. Transactions in currencies other than LAK are initially translated using the exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the exchange rate ruling at the interim separate balance sheet date. All gains and losses are taken to the finance income and finance costs accounts, respectively, in the interim separate income statement.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable, excluding trade discount, rebate and sales return. The following specific recognition criteria must also be met before revenue is recognised:

Sale of goods

Revenue is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer, usually upon the delivery of the goods.

Interest

Revenue is recognised as the interest accrues (taking into account the effective yield on the asset) unless collectability is in doubt.

Taxation

Profit tax is the expected tax payable on the taxable profit for the year, using tax rate enacted at interim separate balance sheet date and applicable to the reporting period, and any adjustment to tax payable in respect of previous years.

Other taxes payable include value added tax and employees' personal income tax.

Value added tax is the tax liability determined on revenue for the period computed using the applicable tax rate for the year.

Personal income tax is the tax payable on salary paid to staff for the period determined using applicable tax rate for the years.

Any adjustments to the amount of tax payable of prior years as a result of Tax inspection are recorded directly into retained earnings.

Related party transactions

Parties are considered to be related if they have the ability to control or exercise significant influence over each other in making financial and operational decisions or are subject to common control or common significant influence.

Transactions with related parties are conducted based on market prices or, where no market prices exist, at contractually agreed prices.

Other operating expenses

Expenses relating to the suspended plants are recognised as other operating expenses.

Segment information

A segment is a component determined separately by the Company which is engaged in providing products or related services (business segment) or providing products or services in a particular economic environment (geographical segment), that is subject to risks and returns that are different from those of other segments.

The Company's principal activities per Business License are to provide service on tourism (inbound-outbound) and construction of condominium for sale. In addition, these activities are only taking place within Lao PDR. Therefore, the Company's risks and returns are not impacted by the Company's services that the Company is providing or the locations where the Company is doing the business. As a result, the Company's management is of the view that there is only one segment for business and geography and therefore presentation of segmental information is not required.
