Lao Culture Tourism Public Group Company

GENERAL INFORMATION

THE COMPANY

Lao Culture Tourism Public Group Company ("the Company"), previously known as Lao Cement Public Company and Lao Cement Co., Ltd, was established in accordance with the Article of Association signed in Vientiane Laos on 15 December 1998 by Lao Agriculture-Forestry Development and Service Company and China Yunnan Corporation for International Techno-Economic Cooperation.

On 6 December 1999, the Company received the first Business Licence No.1154/BLO issued by the Ministry of Industry and Commerce, which allowed the Company to operate in cement and other related cement products for domestic consumption and export.

On 14 February 2018, the Company received the Certificate of Initial Public Offering (IPO) completion No.0008/LSX issued by Lao Securities Commission Office, according to which the Company had completed IPO process with the total 40,004,000 shares of the Company (under the ticker "LCTC") have been officially listed on Lao Securities Exchange.

On 20 February 2018, Ministry of Industry and Commerce issued Business Licence No.0160/BLO in which the Company's name was changed from Lao Cement Co., Ltd to Lao Cement Public Company.

On 2 May 2023, the Company obtained the new Investment License No. 119.2023/MPI, issued by the Ministry of Planning and Investment, which modified the principal business activities of the Company. According to which, the principal activities of the Company were changed from production, wholesale and retail of cement and other related cement products to provide service on tourism (inbound-outbound) and construction of condominium for sale.

On 30 October 2023, the Company obtained the latest Business License No.3330/BLO from Ministry of Industry and Commerce, In which the Company's name was changed from Lao Cement Public Company to Lao Culture Tourism Public Group Company.

The shareholding structure of the Company as at 31 December 2024 is as follows:

Shareholders	*Number of shares*	*Percentage*
Yunnan Hengshi Chengrui Holdings Co., Ltd ("Yunnan Hengshi") (Previously known as Yunnan Qianhan Technology Network Limited ("Yunnan Qianhan"))	14,280,000	35.696%
Lao Agriculture-Forestry Development and Service Company (DAI)	13,720,000	34.297%
Lao China Securities Co., Ltd (LCS)	7,547,800	18.868%
Other public corporation and individual investors	4,456,200	11.139%
	40,004,000	

The Company's registered head office is at Phonphanao Village, Xaysettha District, Vientiane Capital, Lao PDR. The Company also has Vangvieng Cement Plant No.II which is located in Vangvieng province, Lao PDR.

Lao Culture Tourism Public Group Company

REPORT OF MANAGEMENT

Management of Lao Culture Tourism Public Group Company ("the Company") is pleased to present its report and the Company's separate financial statements for the year ended 31 December 2024.

MANAGEMENT'S RESPONSIBILITY IN RESPECT OF THE SEPARATE FINANCIAL STATEMENTS

Management is responsible for the preparation of the separate financial statements which have been prepared in accordance with the accounting policies as described in Note 3 to the separate financial statements. These accounting policies are not intended to present the separate financial position, the results of operations and cash flows of the Company in accordance with international generally accepted accounting principles. In preparing those separate financial statements, management is required to:

- select suitable accounting policies and then apply them consistently;
- make judgement and estimates that are reasonable and prudent;
- state whether applicable accounting policies have been followed, subject to any material departures disclosed and explained in the separate financial statements; and
- prepare the separate financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue its business.

Management is responsible for ensuring that proper accounting records are kept which disclose, with reasonable accuracy at any time, the separate financial position of the Company and for ensuring that the separate financial statements comply with the accounting policies applied. It is also responsible for safeguarding the assets of the Company and thus for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Management confirmed that it has complied with the above requirements in preparing the accompanying separate financial statements.

STATEMENT BY MANAGEMENT

Management does hereby state that, in its opinion, the accompanying separate financial statements are prepared, in all material respects, in accordance with the accounting policies as described in Note 3 to the separate financial statements.

On behalf of the Board of Management:

ເນ້ຍເຫຼີ

Mr. Nie Lei
General Director

INDEPENDENT AUDITORS' REPORT

To: The shareholders of Lao Culture Tourism Public Group Company

Disclaimer of Opinion

We were engaged to audit the separate financial statements of Lao Culture Tourism Public Group Company ("the Company"), which comprise the separate balance sheet as at 31 December 2024, and the separate income statement, separate statement of changes in equity and separate statement of cash flows for the year then ended, and notes to the separate financial statements, including a summary of significant accounting policies.

Because of the significance of the matters described in the *Basis for Disclaimer of Opinion* paragraphs, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the accompanying separate financial statements.

Basis for Disclaimer of Opinion

As disclosed in Note 2 to the separate financial statements, the Company incurred a net loss of LAK 4.8 billion for the year ended 31 December 2024. And as of that date, the Company had accumulated losses of LAK 79.86 billion and its current liabilities of LAK 77.26 billion also exceeded its current assets by LAK 55.54 billion. These conditions indicate the existence of a material uncertainty which may cast significant doubt about the Company's ability to continue as a going concern. The separate financial statements for the year ended 31 December 2024 are prepared on going concern basis based on the assumption that the Company has sufficient resources for the settlement of its liabilities to third parties and for the operations to continue in the following year without curtailment. The Company's management has prepared a cashflow forecast to support the settlement and operation plan, primarily on the basis of their expectation of financial support to be received from its shareholders and its ability to sell inventory properties. Based on current available information, we are unable to obtain sufficient appropriate evidence to verify assumption made by the Company's management in preparation of the above cashflow forecast. Accordingly, we are unable to satisfy ourselves as to the appropriateness of the use of going concern assumption in the preparation of these separate financial statements for the year ended 31 December 2024.

Emphasis of Matters

Accounting policies

We draw attention to Note 3 to the separate financial statements which describes the accounting policies adopted by the Company. These accounting policies are not intended to present the separate financial position, separate results of operations and separate cash flows of the Company in accordance with international generally accepted accounting principles.

Our conclusion is not modified in respect of this matter.

A member firm of Ernst & Young Global Limited

Building a better working world

Responsibilities of Management and Those Charged with Governance for the separate financial statements

Management is responsible for the preparation of the separate financial statements in accordance with the accounting policies as described in Note 3 to the separate financial statements, and for such internal control as management determines is necessary to enable the preparation of the separate financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the separate financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

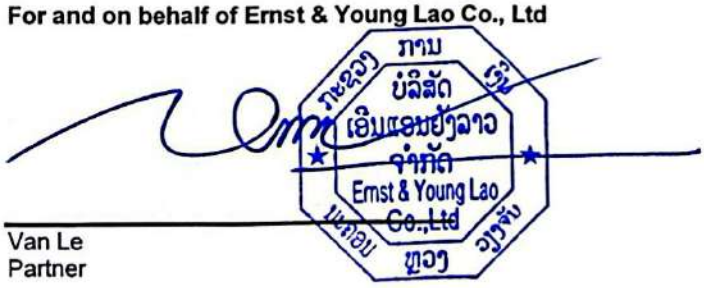

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Separate Financial Statements

Our responsibility is to conduct an audit of the Company's separate financial statements in accordance with International Standards on Auditing (ISA) and to issue an auditor's report. However, because of the matters described in the *Basis for Disclaimer of Opinion* section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these separate financial statements.

We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code) and the ethical requirements that are relevant to our audit of the financial statements in Laos PDR, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code.

Laos Education and Training Center Company Sole Co., Ltd	1485/BLO dated 06 May 2024 issued by the Ministry of Industry and commerce.	Education consulting service	100%

2. BASIS OF PREPARATION

According to the Accounting Law No.46/NA dated 20 November 2023, public interest entities, including listed companies should apply International Financial Reporting Standards ("IFRS") in preparing their annual financial statements, starting from 2017. In accordance with the Official Letter No. 1137/MOF dated 27 April 2020 by the Ministry of Finance, public interest entities are allowed to delay the application of IFRS until 1 January 2026.

For the period ended 31 December 2024, the Company has prepared its separate financial statements in accordance with the accounting policies as set out in Note 3 to the separate financial statements. These accounting policies are not intended to present the separate financial position, separate results of operations and separate cash flows of the Company in accordance with international generally accepted accounting principles.

The separate financial statements of the Company have been prepared using the historical cost convention. These separate financial statements are expressed in Lao Kip ("LAK") as it is the currency in which the majority of the Company's transaction are denominated and settled.

As of December 31, 2024, the cumulative inflation rate in Lao P.D.R. over the past 36 months has exceeded 100%, categorizing the country as a hyperinflationary economy, according to the BOL report (https://www.bol.gov.la/en/inflation). However, the Company has not implemented any accounting policies to address the effects of hyperinflation due to the absence of specific guidance from the Ministry of Finance (MOF) on this matter.

Use of going concern assumption in the preparation of the separate financial statements

The Company incurred a net loss of LAK 4.8 billion for the year ended 31 December 2024. As at this date, the Company's accumulated losses of LAK 79.86 billion exceeded contributed charter capital by LAK 59.86 billion, and the Company's current liabilities also exceeded its current assets by LAK 55.54 billion. On 25 August 2020, the Company published Announcement No.202/LCC about temporarily ceasing all production until further notice. The Company has modified the principal business activities in accordance with the new investment license No. 119.2023/MPI dated on 02 May 2023, which is issued by the Ministry of Planning and Investment. The principal activities of the Company change from production, wholesale and retail of cement and other related cement products to provide service on tourism (inbound-outbound) and construction of condominium for sale. These conditions indicate that a material uncertainty exists that may cast significant doubt about the Company's ability to continue as a going concern.

The Company's management has prepared a cash flow forecast to support the settlement and operation plan, primarily on the basis of their expectation of financial support to be received from its shareholders and its ability to sell inventory properties. The Company's management obtained financial support letter from Yunnan Hengshi Chengrui Holdings Co., Ltd. the major shareholder of the Company, which stipulated its agreement to provide all necessary financial support to ensure that the Company will have sufficient resources to settle its liabilities when they fall due in the following financial year without curtailment. On this basis, the management considers it as appropriate to prepare the Company's separate financial statements on the going concern basis.

Accordingly, the separate financial statements do not include any adjustments that may be necessary if the Company is unable to continue as a going concern.

Fiscal year

The Company's fiscal year starts on 1 January and ends on 31 December.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation.

The cost of a property, plant and equipment purchased by the Company consists of its purchase price and any directly attributable costs of bringing the asset to working condition for its intended use. Expenditures for additions, improvements and renewals are capitalized while expenditures for maintenance and repairs are charged to the separate income statement.

When an item of property, plant and equipment is sold or retired, their cost and accumulated depreciation are removed from the separate balance sheet and any gain or loss resulting from their disposal is included in the other operating income or expense accounts, respectively, in the separate income statement.

Construction in progress represents assets under construction. This includes the costs of construction and other directly attributable costs.

Fully depreciated assets are retained in the accounts until they are no longer in use and no further depreciation are recognized in the separate income statement.

Depreciation

Depreciation of property, plant and equipment is calculated on a straight-line basis over the expected useful life of the assets as follows:

Buildings and structures	5 to 20 years
Machinery and equipment	5 years
Means of transportation	5 years
Leasehold improvement	5 to 10 years
Office equipment	5 to 10 years
Others	10 years

The useful life of leasehold improvement is determined based on management estimates on expected usage and might be different with the lease term.

Depreciation on property, plant and equipment acquired or disposed of during the period is provided for on a pro-rata basis with reference to the month of acquisition or disposal. No depreciation is provided for assets under construction until such time that the relevant assets are completed and put into use.

Intangible assets

Intangible fix assets consist of computer software and land use right. The cost of the software comprises its purchase price plus any directly attributable costs of bringing the software to working condition for its intended use.

Land use rights with indefinite term of use and are stated at cost. The cost of land use rights, which comprise the purchase price and any directly attributable costs, is not amortized.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Leases

The determination of whether an arrangement is a lease, or contains a lease, is based on the substance of the arrangement and requires an assessment of whether the fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset.

The Company as a lessee

Leases, where all the risks and benefits of ownership of the leased items are not transferred substantially to the Company are operating leases. Operating lease payments are recognized as an expense in the profit or loss on a straight-line basis over the lease term. Contingent rental payable is recognized as an expense in the period in which they are incurred.

Inventories

Inventories are stated at the lower of cost incurred in bringing each product to its present location and condition, and net realisable value.

Net realisable value represents the estimated selling price in the ordinary course of business less the estimated costs to complete and the estimated costs necessary to make the sale.

The periodic method is used to record inventories, which are valued as follows:

Raw materials, consumables, tools and supplies	-	Cost of purchase on a weighted average cost basis.
Work-in-progress and Finished goods	-	Cost of direct materials and labour plus attributable manufacturing overheads based on the normal operating capacity on a weighted average cost basis.

Inventory property

Property acquired and being constructed for sale in the ordinary course of business, rather than to be held for rental or capital appreciation, is held as inventory property and is measured at the lower of cost and net realisable value (NRV).

Principally, this is residential property that the Company develops and intends to sell before, or on completion of development.

Cost incurred in bringing each properly to its present location and condition includes:

- Amounts paid to contractors for development
- Borrowing costs, planning and design costs, costs of site preparation, professional fees for legal services, development overheads and other related costs

NRV is the estimated selling price in the ordinary course of the business, based on market prices at the reporting date, less estimated costs of completion and the estimate costs necessary to make the sale.

When an inventory property is sold, the carrying amount of the property is recognised as an expense in the period in which the related revenue is recognised. The carrying amount of inventory property recognised in profit or loss is determined with reference to the directly attributable costs incurred on the property sold and an allocation of any other related costs bases on the relative size of the property sold.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Provision for obsolete inventories

Provision for obsolete inventories is the estimated loss arising due to the impairment in value (through diminution, damage, obsolescence, etc.) of inventories based on appropriate evidence of impairment available at the balance sheet date. When inventories are expired, obsolescence, damage or become useless, the difference between the provision previously made and the historical cost of inventories are included in the separate income statement.

Increases and decreases to the provision balance are recorded into the other operating expenses for additional provision and in the other operating income for reversal of provision in separate income statement.

Investments in subsidiaries

Subsidiaries are all entities (including structured entities) over which the Company has control. The Company controls an entity when the company is exposed to, or has rights to, variable returns though its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the company. They are deconsolidated from the date that control ceases.

Intercompany transactions, balances and unrealised gains or loss on transactions between the Company and its subsidiaries are eliminated. A list of the company's subsidiaries is shown in note 7.

In the separate financial statements, investments in subsidiaries are accounted at cost.

Trade receivables and provision for doubtful accounts

Trade receivables are stated net of total gross trade receivables and provision for doubtful accounts.

The Company provides allowance for doubtful accounts for trade receivables based on consideration of historical data and the overdue age of the receivables as follows:

Overdue period	*Provision rate*
6 months to 1 year	30%
From 1 year to 2 years	50%
More than 2 years	100%

Increases or decreases to the provision balance are recorded as "Other operating expenses" or "Other operating income" respectively in the separate financial statements.

Cash

Cash comprises cash on hand and cash in banks.

Borrowing costs

Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds. Borrowing costs are recorded as expenses during the year in which they are incurred.

Trade payables, accrued expenses and other payables

Payables and accruals are recognized for amounts to be paid in the future for goods and services received, whether or not billed to the Company.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Contributed capital

Contributed capital is recognized in the separate balance sheet when cash is collected from the shareholders in the case of cash contribution or when there is approval from shareholders in the case of contribution in-kind, and share certificate is issued. Any unpaid capital based on Article of Association, enterprise and tax licenses is not recognized in the separate balance sheet.

Share premium reserve

The share premium is recognized upon issuance of additional shares, at a surplus between the offering price of additional share issuance and the par value, after deduction of share issuance cost (such as underwriting fees and other relevant valuation, consulting costs).

Reserves

Under the requirement of Enterprise Law no. 46/NA dated 20 November 2023, public companies are required to appropriate net profit to legal reserve fund.

The legal reserve fund is a fund to secure against risks, which is ten percent (10%) of its net profit into the reserve fund, after deducting its accumulated losses. When the legal reserve reaches one-half of the contributed charter capital, the Company may suspend the conversion of profit to such fund, unless otherwise approved by the Company's owners.

Other reserve funds including welfare fund reserve and plant expansion reserve which are appropriated from retained earnings in accordance with the Article of Incorporation of the Company dated 15 December 1998. The appropriation amount is determined by the Company's Board of Directors on an annual basis.

Reserve funds of current period are appropriated from net profit of prior years upon the approval of the Annual General Meeting of Shareholders.

Foreign currencies

The separate financial statements are presented in LAK which is the Company's functional and presentation currency. Transactions in currencies other than LAK are initially translated using the exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the exchange rate ruling at the separate balance sheet date. All gains and losses are taken to the finance income and finance costs accounts, respectively, in the separate income statement.

Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable, excluding trade discount, rebate and sales return. The following specific recognition criteria must also be met before revenue is recognised:

Sale of goods

Revenue is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer, usually upon the delivery of the goods.

Interest

Revenue is recognized as the interest accrues (taking into account the effective yield on the asset) unless collectability is in doubt.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Taxation

Profit tax is the expected tax payable on the taxable profit for the year, using tax rate enacted at separate balance sheet date and applicable to the reporting period, and any adjustment to tax payable in respect of previous years.

Other taxes payable include value added tax and employees' personal income tax.

Value added tax is the tax liability determined on revenue for the period computed using the applicable tax rate for the year.

Personal income tax is the tax payable on salary paid to staff for the period determined using applicable tax rate for the years.

Any adjustments to the amount of tax payable of prior years as a result of Tax inspection are recorded directly into retained earnings.

Related party transactions

Parties are considered to be related if they have the ability to control or exercise significant influence over each other in making financial and operational decisions or are subject to common control or common significant influence.

Transactions with related parties are conducted based on market prices or, where no market prices exist, at contractually agreed prices.

Other operating expenses

Expenses relating to the suspended plants are recognised as other operating expenses.

Segment information

A segment is a component determined separately by the Company which is engaged in providing products or related services (business segment) or providing products or services in a particular economic environment (geographical segment), that is subject to risks and returns that are different from those of other segments.

The Company's principal activities per Business License are to provide service on tourism (inbound-outbound) and construction of condominium for sale. In addition, these activities are only taking place within Lao PDR. Therefore, the Company's risks and returns are not impacted by the Company's services that the Company is providing or the locations where the Company is doing the business. As a result, the Company's management is of the view that there is only one segment for business and geography and therefore presentation of segmental information is not required.

22. PROFIT TAX

Under the new Income Tax Law No.67/NA dated 18 June 2019, which is effective on or after 1 January 2020, the normal profit tax ("PT") rate is 20%. In addition, the companies which are registered on Lao Stock Exchange shall be granted incentive rate at 13% for four years from the date of registration. According, the tax rate applicable for the Company in 2024 is 20%. (2023: 20%)

The tax returns filed by the Company are subject to examination by the tax authorities. As the application of tax laws and regulations is susceptible to varying interpretations, the amounts reported in the separate financial statements could change at a later date upon final determination by the tax authorities.

The current tax payable is based on taxable profit for the year. The Company's liability for current tax is calculated using tax rates that have been enacted at the separate balance sheet date.

22. PROFIT TAX (continued)

The estimation of profit tax is presented below:

	2024 LAK	2023 LAK
