INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDERS AND BOARD OF DIRECTORS OF LAO AGROTECH PUBLIC COMPANY

Our opinion

In our opinion, the consolidated financial statements of Lao Agrotech Public Company (the Company) and its subsidiary (the Group) for the year ended 31 December 2024 are prepared, in all material respects, in accordance with accounting policies described in Note 2 to the consolidated financial statements.

What we have audited

The consolidated financial statements comprise:

- the consolidated statement of financial position as at 31 December 2024;
- the consolidated statement of income for the year then ended;
- the consolidated statement of changes in equity for the year then ended;
- the consolidated statement of cash flows for the year then ended; and
- the notes to the consolidated financial statements, which include significant accounting policies and other explanatory information.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Group in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants (IESBA Code). We have fulfilled our other ethical responsibilities in accordance with the IESBA Code.

Emphasis of matter - Basis of accounting

We draw attention to Note 2 to the consolidated financial statements, which describes the basis of accounting. The consolidated financial statements have been prepared in accordance with the Group's accounting policies which the accounting basis used in the preparation of these consolidated financial statements may differ from International Financial Reporting Standards (IFRS). The readers should therefore be aware that the accompanying consolidated financial statements are not intended to present the consolidated financial position and its consolidated financial performance and its consolidated cash flows in accordance with IFRS. Our opinion is not modified in respect to this matter.

pwc

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. We determine one key audit matter: Revenues recognition. The matter was addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the key audit matter
Revenues recognition **Refer to Note 2.15 'Significant accounting policies – Revenue recognition' and Note 19 'Revenue from sales' to the consolidated financial statements.** Revenue from sales of goods is typically recognized upon the delivery of goods to customers. However, there is a concern that revenue could be prematurely recognized if invoices and delivery notes are issued at or near year-end without the actual delivery of goods to the customer. This risk is heightened when goods are destined for customers located at significant distances or when customers temporarily halt operations, such as during holiday shutdowns. Thus, there is a likelihood of a risk of misstatement of the financial statements related to transactions occurring close to the year end, as transactions could be recorded in the wrong financial period.	We performed the following procedures: • Assessing and testing the design and operating effectiveness of controls for revenue recognition, particularly focus on controls around the timely and complete recording of sales transactions. • Testing end-to-end reconciliations from sale report to the general ledger of revenue account, including testing adjustment transaction records against the underlying documents related to revenue. • Selecting revenue samples prior to and after year end to test whether they are recorded in appropriate timing, based on terms and conditions set out in sales invoices. • Examining the revenue transactions for goods sold during the period on a sample basis by agreeing the revenue transactions with goods delivery note which signed by customer. • Challenging management how they ensure the completeness and cut off for revenue recognition. From these procedures performed, we found that revenue recognition was in accordance with the accounting policy and the available evidence.

Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon. The annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to the audit committee.

Responsibilities of the directors for the consolidated financial statements

The directors are responsible for the preparation of the consolidated financial statements in accordance with accounting policies described in Note 2 to the consolidated financial statements, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The audit committee assists the directors in discharging their responsibilities for overseeing the Group's financial reporting process.

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

pwc

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.

- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the consolidated financial statements. We are responsible for the direction, supervision and review of the audit work performed for purpose of the group audit. We remain solely responsible for our audit opinion.

We communicate with the audit committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the audit committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the audit committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

1 General information

LAO AGROTECH PUBLIC COMPANY (the Company) and its subsidiary which is Lao Dee Green Sole Co.,Ltd (together, "the Group") are respectively listed and limited companies incorporated and domiciled in the Lao PDR. The address of its registered office is Nongkhankhu village, Naxaythong district, Vientiane Lao People Democratic Republic.

The Parent's shares were firstly traded at Lao Securities Exchange on 25 September 2017.

The principal activity of the group is to carry on the palm oil industry which starting from palm sapling cultivation, palm plantation, palm product processing and sell by the Group itself. The Group also provides the financial supports and palm saplings to the farmers for planting and buyback the palm seed.

In addition, the Group also imports finished goods such as cooking oil and monosodium glutamate from Thailand to sell in Lao PDR.

The Group invested 100% in Lao Dee Green Sole Co.,Ltd, which total share capital of amount LAK 240,422,000,000. As at 31 December 2024, The Group was paid up share at 5% of total share capital in subsidiary or equivalent to LAK 10,944,555,481 (the value of paid are classify to in kind is LAK 5,143,106,482 and in cash is LAK 5,801,448,999).

Regarding to share certificate number 00001/LDG, dated 31 December 2023, as of the date of this certificate, the registered capital of the Company is LAK 240,422,000,000, the value of paid is LAK 6,978,718,091 (the value of paid are classify to in kind is LAK 5,143,106,482 and in cash is LAK 1,835,611,609).

The principal activity of the subsidiary is to establish high quality tree plantations, primarily of acacia, and to process this wood, together with sustainably produced plantation acacia, into high value ready-made products for the export market.

The Company's project located at Taoi and Samoi district, Salavan province, Lao PDR.

The consolidated financial statements were authorised for issued by the director on 20 March 2025.

2 Significant accounting policies

The principal accounting policies adopted in the preparation of the consolidated financial statements are set out below:

2.1 Basis of preparation

The accompanying consolidated financial statements have been prepared in accordance with the Group's principal accounting policies as described below and have been prepared generally under the historical cost convention.

According to the Accounting Law no. 47/NA issued on 26 December 2013, Public Interest Enterprises (PIEs) are required to apply IFRS. However, Ministry of Finance has issued announcement No. 1137/MoF issued on 27 April 2020 and from Lao Securities and Exchange Commission Office (LSCO) dated 25 May 2020, which provided options for PIEs to prepare action plan for adoption IFRS until 31 December 2025 and 1 January 2026 onward, all listed companies must fully adopt IFRS.

The management is presently preparing action plan for implementation of IFRS in accordance with the announcement. Therefore, the accounting principles applied may materially differ from International Financial Reporting Standards (IFRS).

The preparation of consolidated financial statements requires management to make estimates and assumptions that affect the reported assets and liabilities, the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the revenues and expenses in the reported periods. Although these estimates are based on management's knowledge of current events and actions, actual results may materially differ from those estimates.

2.2 Group accounting - investments in a subsidiary

Subsidiary is an entity (including structured entity) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns though its power over the entity. Subsidiary is fully consolidated from the date on which control is transferred to the Group. It is deconsolidated from the date that control ceases.

Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiary have been changed where necessary to ensure consistency with the policies adopted by the Group.

2 Significant accounting policies (Continued)

2.3 Foreign currency translation

Transactions denominated in currencies other than Lao Kip (LAK) are translated into LAK at the rates of exchange prevailing on the transaction dates.

Monetary assets and liabilities at the statement of financial position date denominated in currencies other than LAK are translated into LAK at the exchange rate prevailing at the statement of financial position date.

Gains and losses resulting from the settlement of foreign currency transactions and from the translation of monetary assets and liabilities denominated in foreign currencies are recognised in the statement of income.

2.4 Cash and cash equivalents

Cash and cash equivalents include cash in hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less. In the statement of financial position, bank overdrafts are shown within borrowings in current liabilities, if any.

2.5 Trade and other receivables

Trade and other receivables are carried at original invoice amount and subsequently measured at the remaining amount less allowance for impairment based on a review of all outstanding amounts at year end, except receivable from contract farming. The amount of the allowance is the difference between the carrying amount of the receivable and the amount expected to be collectible. Bad debts are written off during the year in which they are identified and recognised in the statement of income within selling and administrative costs. Allowance for doubtful account and reversal of doubtful account are recognised as a separate line in selling and administrative expenses and other income in the statement of income respectively.

Management consider provision for allowance for doubtful account when the outstanding balance is over 3 years.

2.6 Inventories

Inventories are stated at the lower of cost or net realisable value. Cost is determined by actual average cost of production incurred in each production year using first in-first out (FIFO) method and weighted average cost method. The cost of finished goods comprises with direct raw material, direct labour cost and other direct production overheads. The cost of purchase comprises both the purchase price and costs directly attributable to the acquisition of the inventory, such as import duties and transportation charges, less all attributable discounts, allowances or rebates.

2 Significant accounting policies (Continued)

2.6 Inventories (Continued)

Net realisable value is the estimate of the selling price in the ordinary course of business, less the costs of completion and selling expenses. Allowance is made, where necessary, for obsolete, slow-moving and defective inventories. Write-off of inventories was recognised in statement of income.

2.7 Factory supplies

Factory supplies are stated at the cost and determined by weighted average cost method. The factory supplies mainly comprise CPO, chemical, bio-diesel B100, fertilizer, potassium nitrate and palm seeds. These factory supplies are also be able to be sold to customers as revenue of The Group. The costs of purchase comprise both the purchase price and costs directly attributable to the acquisition of the supplies, such as import duties and transportation charges, less all attributable discounts, allowances or rebates. Allowance is made, where necessary, for obsolete, slow-moving and defective items. Write-off of factory supplies was recognised in statement of income.

2.8 Deferred plantation costs – Acacia trees

Deferred plantation cost - acacia is an accumulated cost of palm plantation which covers cost of land clearance, fertilizer, labor and other expenses which are directly related. Acacia which are ready for harvested normally is 5- 6 years from planting. All revenues related to acacia harvesting are taken to statement of income when sold and the related capitalised costs written off to statement of income when harvest is sold or depleted.

2.9 Property, Plant and Equipment

Property, plant and equipment are stated at historical cost less accumulated depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the property, plant and equipment items. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably.

Land is not depreciated. Depreciation on other assets is calculated so as to write off the cost less residual value of each item of plant and equipment on a straight-line basis over their expected useful life.

The estimated useful life for each category of property and equipment is as follows:

	Years
Buildings and infrastructure	5 - 40
Furniture and equipment	3 - 5
Machinery and equipment	5 - 20
Vehicles	3 - 5

2 Significant accounting policies (Continued)

2.9 Property, Plant and Equipment (Continued)

Where the carrying amount of an asset is greater than its estimated recoverable amount, it is written down immediately to its recoverable amount.

Repairs and maintenance are charged to the statement of income during the financial period in which they are incurred. The cost of major renovations is included in the carrying amount of the asset when it is probable that future economic benefits in excess of the originally assessed standard of performance of the existing asset will flow to the Group. Major renovations are depreciated over the remaining useful life of the related asset.

Gains and losses on disposals are determined by comparing proceeds with carrying amount and are included in the statement of income.

2.10 Deferred plantation costs – Palms

Deferred plantation cost - palms is an accumulated cost of palm plantation which covers cost of land clearance, fertilizer, labor and other expenses which are directly related. All are measured at cost less accumulated amortization and allowance for impairment. Palms, which are ready for harvested (generally 4 years from planting), will be amortised to be cost of raw materials over the period 26 years of its expected economic useful life.

2.11 Deferred plantation costs – Saplings

Deferred plantation cost - Saplings is presented in the statement of financial position at cost deducted accumulated allowance for impairment. The costs comprise both direct purchase price of sapling and costs directly attributable to the acquisition of the palm saplings such as import duties and transportation charges.

2.12 Deferred plantation costs – Pongamia tree

Pongamia costs comprise both direct purchase price of Pongamia trees and costs directly attributable to the acquisition of the Pongamia trees such as labor cost and fertilizer, labor and other expenses which are directly related. Pongamia which are ready for harvested normally is 5- 6 years from planting.

2.13 Trade and other account payables

Trade and other account payables are carried at the original invoice amount and subsequently measured at the remaining amount less any.

2 Significant accounting policies (Continued)

2.14 Leases

Leases – where the Group is the lessee

Leases not transferring a significant portion of the risks and rewards of ownership to the lessee are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to the statement of income on a straight-line basis over the period of the lease.

When an operating lease is terminated before the lease period has expired, any payment required to be made to the lessor by way of penalty is recognised as an expense in the period in which termination takes place.

Leases of property, plant or equipment (PPE) which has lease agreement with leasing company are classified as finance leases. The cost of PPEs is consisted of purchase, and installation and other direct cost relating to those PPE. Lease payable is included cost of PPE and deferred interest expenses. Deferred interest expense is recorded as asset and will recognise in statement of income on a straight-line basis over the period of lease agreement.

2.15 Revenue recognition

Revenue from sales of goods is recognised when significant risks and rewards of ownership of the goods are transferred to the buyer which is generally at the time that the Group delivers products to its customers based on agreed trading and delivery terms and conditions.

Other revenues are recognised on the following basis:

- Revenue from sales of palm residue is recognized when palm residue is transfer to buyer based on agreed trading and delivery term

2.16 Income tax

The Group is subject to income taxes in the Lao PDR. The taxation system in the Lao PDR is still relatively new and is characterised by numerous taxes and changing legislation, which is always subject to interpretation. Often, differing interpretations exist among the numerous taxation authorities and jurisdictions. Taxes are subject to review and investigation by a number of authorities, who have the power by law to impose severe fines, penalties and interest charges. These facts may create more substantial tax risks in Lao PDR than in other countries. Management believes that it has adequately provided for its tax liabilities based on its interpretation of existing tax legislation. However, the relevant authorities may have differing interpretations and the effects could be significant.

Income tax payable to the tax authorities is recognised as an expense in the statement of income. The Group settles income taxes payable by offsetting prepaid taxes with its tax liabilities (if any).

3 Cash and cash equivalents

	2024 LAK	2023 LAK
Cash on hand	5,248,000	9,147,024

	55,847,258	**20,743,266**

14 Borrowings

As at 31 December 2024, The Group has outstanding balance, short term borrowing from SAI GON - HA NOI BANK LAO LIMITED (SHB).

As at 31 December 2024, the outstanding balance of borrowings is listed in table below:

Carrying amount (LAK)	Drawdown (LAK)	Repayment (LAK)	Outstanding balance (LAK)	Maturity and repayment term	interest rate per annum	Collaterals
2,000,000,000	4,00,000,000	(4,000,000,000)	2,000,000,000	12 Months, principal and interest are payable on monthly basis.	9.5%	1. Land lots no. 474, amount LAK 971,520,000. 2. Land lots no. 473, amount LAK 1,140,301,400. 3. Land lots no. 362, amount LAK 325,983,500. 4. Land lots no. 427, amount LAK 274,850,000.

15 Finance leases liability

	2024 LAK	2023 LAK
Current		
Current portion of finance leases	840,316,500	1,088,782,267
	840,316,500	**1,088,782,267**

The Group signed two leasing agreements in Baht and LAK currency for lease vehicles.

16 Other non-current liabilities

Regarding to the Agreement for pilot plantation of Pongamia trees for the carbon oxygen project dated 16 October 2023, by and between FOUR PRIDE PTE. LTD or (FP) and LAO AGROTECH PUBLIC COMPANY or (LAT) are stated the term and condition as followings:

- Period of the project: 4 years from the date of plantation commencement which is November 2023.
- Location of plantation: In Vientiane and Salavan Province, Lao PDR
- Land Area for Plantation: 300 hectares
- Number of Pongamia trees per hectares: 160-220 trees per hectare once agreed with FP and LAT
- The cost of plantation service: USD 2,946.20 per hectare for four years, total cost amount of USD 883,859.95 or equivalent to LAK 18,223,424,449.

Throughout the four-year period under this agreement, LAT shall provide and be responsible for all required services related to the ordinary course of the Pongamia plantation business. This includes, but is not limited to, creating afforestation land, irrigation systems, supplying and inspecting seedlings, afforestation, plantation management, beekeeping, pruning, harvesting, maintenance of the plantation, labor arrangement, and other related activities. LAT shall be responsible for the preparation of devices, equipment, tools, instruments, or other necessities required for the provision of these services.

During the year ending 31 December 2024, there were no changes in the terms or conditions stated above. LAT recognized this balance as an advance payment from FP, categorized as non-current liabilities, which will be settled after receiving income from the carbon-oxygen project upon the completion of the four-year term.

17 Share capital

	Number of Shares Shares	Ordinary Shares LAK	Share premium LAK	Total LAK
At 1 January 2023	100,000,000	50,000,000,000	3,269,466,406	53,269,466,406
