To consider and approve the business performance of LCS for the year 2024 and business plan for the year 2025

In 2024, Lao-China Securities Public Company (hereinafter referred to "LCS") will focus on issuance of Initial Public Offering (IPO) share and listing on Lao Securities Exchange (LSX). The main focus is to continue providing financial advisory services and selling agent for government bonds, promoting the issuance of yuan-denominated government bonds, concentrating on the Lao Airlines valuation project, paying attention to backup projects of the financial advisory and underwriting department, preparing to initiate private fund management, reducing operating costs by relocation of the company's address and others. At the same time, LCS also actively expanded various business activities to increase revenue and decrease expenses. Therefore, LCS would like to present the LCS's key business performance for the year 2024 to the Board of Director as follows:

I. Relevant Macroeconomic Situation

In 2024, following the end of the U.S. Federal Reserve's interest rate and market expectation of reduction of U.S. dollar interest rate, the depreciation of Lao kip was brought under control. The Lao Government announced the closure of currency exchange institutions, established an online foreign exchange market, and set up the Lao Bullion Bank, along with other measures to stabilize the exchange rate which yielded positive results. At the same time, the tourism and trade sectors of the Lao PDR gradually recovered, foreign exchange earnings also increased and the government's foreign currency reserves also increased. By the end of December 2024, Lao foreign currency reserves reached USD 2.10 billion, which is the highest in history, increased of USD 1.30 billion compared to 2023. This became a positive factor in maintaining exchange rate stability. Considering the trend of the exchange rate in 2024, the kip appreciated back to a stable level against both the U.S. dollar and the Chinese yuan during the first six months of the year and by December had essentially returned to its early-year levels. According to the exchange rates of the Banque pour le Commerce Exterieur Lao (BCEL) on December 31, 2023, 1 USD = 20,599 LAK and 1 CNY = 2,981 LAK. On December 30 2024, 1 USD = 21,859 LAK and 1 CNY = 2,946 LAK

The growth of commercial banks and financial institutions' profit positively impacted LCS's core businesses, such as providing financial advisory and selling agent for government bonds, investing in BCEL shares and IPO issuance project of two potential commercial banks.

Arrange a suitable time to invite the Agriculture Promotion Bank and LCS to visit the Boten Special Economic Zone to assess the investment situation and discuss on cooperation with the Agriculture Promotion Bank to establish a branch or service unit there.

VII. Challenges and Observed Issues

1. **Uncertainty in implementing the tax policy in Special Economic Zone**

Before deciding to relocate the office to the That Luang Lake Special Economic Zone, LCS previously submitted a letter to the Special Economic Zone Management Committee of Vientiane Capital on August 9 2021 to inquire and confirm whether, if LCS relocates to That Luang Lake Special Economic Zone, what would be an exemption policy on tax that LCS will receive. According to the Prime Minister's decree on promoting investment in special economic zones, especially That Luang Lake Special Economic Zone and Special Economic Zone nationwide, No. 73/PM dated September 28th 2015 (attached document 1). Then, LCS received an official reply letter (attached document 2) on September 2nd 2021, confirming that per the Prime Minister's decree, LCS can be granted the tax exemption policy as follows: "In Article 4 regarding income tax: service activities are exempted from income tax for 2 years. After this exemption period ends, they must comply with tax laws accordingly". In LCS's 2024 audit report by EY Lao, this exemption letter was cited and the final profit aligned accordingly.

However, in practice, the Department of tax under the Ministry of Finance had issued a reply letter to BCEL-KT securities company concerning the non-approval of the special economic zone tax policy. This resulted two securities companies relocating from the Laos Securities Exchange building the That Luang Lake Special Economic Zone had conflict information from Special Economic Zone Management Committee and tax department of Ministry of Finance. Therefore, LCS acted as the representative of the two securities companies to propose to the Special Economic Zone Management Committee to convene a meeting with relevant departments to consult on implementing the tax policy for the special economic zone. Currently, the Special Economic Zone Management Committee of Vientiane Capital has reported this matter to the Special Economic Zone Promotion and Management Office.

2. **Employee salaries are low and unable to retain knowledgeable and skilled staffs**

Currently, the salary level of LCS's employee remains lower than the average salary of employees in the banking sector. In the long term, it will be difficult to attract and retain employees who have knowledge and skills. According to the plan, this problem will be addressed based on business development. After LCS completes the IPO issuance and list on Lao Securities Exchange, LCS will propose to Board of Directors meeting and shareholders' meeting to consider and approve the adjustment of salary policies and employee benefits plan accordingly to increase income and profit for LCS.

Propose to shareholders' meeting to approve the 2024 business performance and the 2025 business plan.

Note: The exchange rate used is based on BCEL's exchange rate on December 31th 2024 = 1 Yuan = 2,946 LAK and 1 US Dollar = 21,859 LAK.

INDEPENDENT AUDITORS' REPORT

To: The Owners of Lao-China Securities Public Company

We have audited the financial statements of Lao-China Securities Public Company ("the Company"), which comprise the statement of financial position as at 31 December 2024, and the income statement, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including material accounting policy information.

In our opinion, the accompanying financial statements of the Company are prepared, in all material respects, in accordance with the accounting policies as described in Note 3 to the financial statements.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISA). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) and the ethical requirements that are relevant to our audit of the financial statements in Lao PDR, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of matter

We draw attention to Note 3 to the financial statements which describes the accounting policies adopted by the Company. These accounting policies are not intended to present the financial position, the results of operations and cash flows of the Company in accordance with international generally accepted accounting principles. As also disclosed in Note 2 to the financial statements, the financial statements are prepared to assist the Company's management in meeting the reporting requirements of its owners. As a result, the financial statements may not be suitable for another purpose. Our report is intended solely for the information and use of the Company's management and its owners and regulators should not be distributed to or used by other parties. Our opinion is not modified in respect of this matter.

Responsibilities of the Company's Management for the Financial Statements

The Company's management is responsible for the preparation of the financial statements in accordance with the accounting policies as described in Note 3 to the financial statements, and for such internal control as management determines is necessary to enable the preparation of the financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Building a better working world

Auditors' Responsibilities for the Audit of the Financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISA, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

We communicate with management regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

To Consider and Approve Employee Bonus Payment Plan for Lao-China Securities Public Company

To safeguard the interests of shareholders and ensure that LCS achieves its goals of listing on the Lao Securities Exchange, our employees have demonstrated exceptional dedication over the past four years, prioritizing company's performance and benefits over their personal interests in order to secure our successfully listing on the Lao Securities Exchange. To recognize, appreciate, and express gratitude for the sacrifices of all employees, and to serve as an incentive to retain skilled personnel, the company proposes to implement a comprehensive reward for all company employees. The detailed is as follows:

The proposed bonus plan has been structured considering the regulatory uncertainty regarding whether the Ministry of Finance will approve the 20% corporate income tax exemption under the Special Economic Zone policy for 2024. Given the actual implementation of the exemption during tax audit submission process, the company has developed the employee bonus plan based on the scenario requiring payment of 20% corporate income tax rate. In 2024, LCS achieved pre-tax profit of 11,320,798,228 Kip. Assuming the 20% corporate income tax applied, the net profit would remain 9,056,638,582 Kip. After deduction of 10% for the regulatory reserve requirement, distributable profit would amount to 8,150,974,724 Kip.

After deducting dividends of 5,555,556,000 Kip, the remaining net profit available for allocation would be 2,595,418,724 Kip. In 2023, net profit reached 1,528,580,982 Kip, and after offsetting accumulated losses, a surplus of 18,060,214 Kip remained. Therefore, there are no accumulated losses requiring offset in 2024.

According to the resolution of the 2018 Annual General Meeting of Shareholders of the company, Agenda Item 3 approved and endorsed the establishment of various reserve funds for Lao-China Securities Company. These reserves were established in addition to the existing 10% regulatory reserve requirement, specifically approval for the creation of a 30% business expansion reserve and a 10% employee welfare reserve in accordance with the Board of Directors' resolution. (supporting document is attached)

In actual implementation, the employee welfare reserve for 2018 was duly deducted but was not distributed to employees. Due to the impact of COVID-19 during 2020-2021, LCS experienced operational losses. To ensure LCS could comply with the conditions required for the listing on securities exchange, the Company did not propose the deduction of employee welfare reserves to the shareholders' meetings in 2019 and 2022-2023. The detailed is as follows:

Year	Net Profit	Employee Welfare Reserve 10% (Kip)	Remark
2018	Net profit: 5,848,297,029 Retained earning: 3,423,571,828	342,357,183	Deducted but not distributed
Based on 2018 shareholders' meeting resolution, proposed for shareholder consideration to deduct 10% employee welfare reserve			
2019	6,330,635,121	633,063,512	Not proposed for deduction
2020	（12,223,599,759）		

2021	（1,484,381,597）		
2022	5,643,996,022		Accumulated losses, not deducted
2023	1,528,580,982		Offsetting accumulated losses, not deducted
2024	9,056,638,582	905,663,858	Not deducted
Total		1,881,084,553	

In recognition and commend all employees who have dedicated their efforts and intellect, and have sacrificed personal benefits during the period 2018-2024 to facilitate the LCS's successful listing on the Lao Securities Exchange, the company hereby proposes to shareholders' meeting to consider the allocation of 1,880,000,000 Kip from previously undistributed employee welfare reserves that has not been allocated or distributed, to be deducted from the 2024 net profit and disbursed as cash bonuses to LCS employees. The detailed employee bonus allocation plan is as follows:

1. Executive Managing Directors: 880,000,000 Kip;
   Managing Director is 320,000,000 Kip;
   Deputy Managing Directors (2 people) is 280,000,000 Kip per each.
2. General employees are 1,000,000,000 Kip, the distribution shall be administered by the Executive Managing Directors based on performance criteria, including individual contribution to implementation initiatives, overall work performance, and proportionate workload responsibilities.

Following the allocation of dividend payments totaling 5,555,556,000 Kip and employee bonus disbursements of approximately Kip 1,880,000,000, the remaining retained earnings balance will amount to 715,418,724 Kip. The detailed is as follows:

Table of Net profit allocation breakdown.

No.	Items	Amount (Kip)
1	Net profit 2024 （assuming 20% income tax deducted）	9,056,638,582
2	Regulatory reserve 10%	905,663,858
3	Available for dividend distribution	8,150,974,724
4	Dividend payment amount	5,555,556,000
5	Remaining amount after dividend payment	2,595,418,724
6	Employee bonus allocation	1,880,000,000
7	Retained Earnings Balance	715,418,724

The company hereby formally submit this proposal to the Shareholders' Meeting to consider and endose the employees bonus payment plan as detailed herein, together with the delegation of authority to the Executive Managing Directors to implement the actual execution and report the implementation progress to the Board of Directors.

To Consideration and Approve the Salary Adjustment Plan for Lao-China Securities Public Company Employees

Since the establishment of LCS in June 2013 through the end of 2019, the exchange rates of the LAK to USD and CNY remained stable, and the inflation rate was within single digits. However, starting in 2020, the LAK began to depreciate sharply against both the USD and CNY, with the highest depreciation rates reaching 146.08% and 130.70%, respectively, over a five-year period. (Note: Based on the exchange rate from Banque Pour Le Commerce Exterieur Lao Public as of 31st December 2019: 1 USD = 21,859 LAK, 1 CNY = 2,946 LAK). According to data from the Bank of the Lao PDR, the annual inflation rates were 22.96% in 2022, 31.23% in 2023, and 23.13% in 2024. The rising prices of goods and services, driven by the weakening LAK and high inflation, have significantly affected the livelihoods of LCS's employees. LCS has prioritized maintaining shareholder rights and benefits and ensuring the successful listing on the Lao Securities Exchange. For example, in 2014, the total annual employee salary at LCS was 3,897,248,000 LAK, equivalent to USD 481,023. By 2024, it was 3,458,005,799 LAK, equivalent to only USD 158,196. The annual employee salary from LCS's founding in 2013 to 2024 is detailed in the table below:

The above table indicates that over the 12 years since its establishment, there has been no adjustment to employee salary or benefits. The current salary standards have caused LCS to face several difficulties, including:

1. **The resignation of highly competent employee has disrupted the team's balance**

In the establishment phase of LCS, it had a total of 34 employees. Since the outbreak of the COVID-19 pandemic, to reduce costs, except for specialized professional positions, the number of employees has been continuously reduced. By the end of 2024, LCS had only 19 employees, including 1 cleaning staff member. Between 2021 and 2024, there were 9 employees resigned due to welfare issues, accounting for nearly 50% of the total employees. In 2022, it was the most challenging year due to the resignations of 4 staff members, all of whom were key personnel from the Department of Private Fund Management and Securities Brokerage.

Due to the depreciation of the LAK, the average salary and benefits at LCS were significantly lower compared to other financial institutions from China operating in the Lao PDR, such as Industrial and Commercial Bank of Laos Limited, Vientiane Capital Branch (ICBC); Bank of China (Hong Kong) Limited - Vientiane Capital Branch (BOC); and Lao China Bank Limited (LCNB). LCS salaries were less than one-third of the average in the banking sector. When compared to companies in the same industry, such as BCEL-KT Securities Co., Ltd. and LDB Securities Sole Co., Ltd., the salary of the Managing Director was less than one-third of their counterparts, and employee salaries were less than 50% of those in the same industry. For instance, the Managing Director of BCEL-KT earns USD 6,000 per month, which is more than the combined salaries of three Managing Directors at LCS. The lowest salary at BCEL-KT is 9,000,000 LAK per month, which is double that of the lowest-paid LCS staff member.

Specifically, employees with foreign language skills and specialized knowledge can easily transfer to other Chinese companies and financial institutions in the Lao PDR. Currently, the Head of the Accounting and Finance Department and the Head of the Information Technology Department, both of whom have many years of experience in their respective fields, have also submitted their resignations due to compensation issues.

2. **Difficulty in recruiting qualified employee and ineffective job recruitment channels**

Following the resignation of former employees in positions such as financial consultants and other specialized roles, the current salary levels at LCS have made it difficult to recruit qualified candidates. LCS has relied on promoting its ideology, mission, vision, and other morale-based incentives to temporarily retain talented personnel despite relatively low salaries at LCS. However, some new employees are receiving salaries close to those of department heads, highlighting an imbalance in compensation and creating a sense of injustice among long-serving employees.

For example, LCS is urgently seeking to recruit a Chinese national who graduated in the Lao PDR. The current labor market rate for this position is USD 1,500 per month after tax, including food and accommodation. This amount is higher than the salary of the Managing Directors. In addition, there is an urgent need to recruit a Head of the Accounting and Finance Department with experience at one of the Big Four auditing firms, as well as an IT technician with over five years of experience serving as Head of the Information Technology Department in a financial institution, whose salary is approximately USD 2,000/month.

3. Business Development is limited due to a lack of labor

Due to the resignation of key specialized personnel from the Department of Financial Advisory and the Department of Private Fund Management, LCS is unable to undertake and implement projects independently. For instance, in the case of the Lao Airlines State Enterprise share valuation project, although LCS secured the project through its own good network, it had to invite the more experienced BCEL-KT Securities Co., Ltd. to collaborate, in order to train new staff and strengthen the team as well.

After LCS was listed on the securities exchange, employee salary has become a critical issue that must be improved in line with market mechanisms. At the same time, LCS's financial position and business development are now ready to support salary adjustment, as evidenced by increased income and profits.

As of April 30th, 2025, LCS achieved a business revenue of 14,848,266,225.93 LAK, representing an increase of 191.95% compared to the same period last year. The LCS recorded a net profit of 10,379,893,571.59 LAK, an increase of 500.43% compared to the same period last year. Due to LCS being appointed as the lead financial advisor for the Government Bond project and has also receiving new projects this year as financial advisor and underwriter for the Initial Public Offering (IPO) of JDB and BIC. It is further expected to provide financial advisory services and act as underwriter for the securities issuance for the capital raise of Banque Pour Le Commerce Exterieur Lao Public, and to collaborate the green bonds issuance for LOCA in partnership with two other securities companies. Given these developments, LCS's financial advisory business income is projected to grow significantly compared to the previous year. Therefore, the growth of LCS's business can support and justify the proposed increase in employees' base salaries.

Based on the above rationale, we respectfully propose the Shareholders' Meeting for consideration and approval of the following LCS employee salary adjustment plan:

1. Increase the base salary of employees by 100%, effective from January 2025. After the salary adjustment, the total monthly base salary shall not exceed 720 million LAK per month. (Note: The current base salary is approximately 360 million LAK per month). To account for potential increase in the number of employees in the future,

the Directors shall control the total cost of base salaries to ensure the total monthly base salary does not exceed 800 million LAK per month.

2. 50% of the current base salary is considered as performance-based salary, with the following reference plan: Authorize the right to the Managing Directors after ensuring performance-based disbursement, under the condition that LCS's ROE is not lower than 9% and that it can be issued after the annual audit report has been approved by the Board of Directors. (Note: As of 2024, LCS's ROE is 9.03%.).
3. In the event that LCS sustains continuous financial losses, the salary system will be reviewed and adjusted accordingly.
4. Authorize the right to the Managing Directors shall implement this plan in accordance with the resolutions of the Board of Directors' meeting.

Note: The exchange rate used is based on the official rate of the Banque Pour Le Commerce Exterieur Lao Public as of April 30th, 2025: 1 CNY = 2,957 LAK.

To Consider and Approve the Board of Directors' Remuneration Plan

Mr. LI XIAOMING, a general shareholder with securities account number: 003263, holds 38,739,600 shares, which equivalent to 3.49% of the total shares of LCS. According to the Article of Association of Lao-China Securities Public Company No. 003/LCS, dated October 14, 2024, Article 20 regarding Proposal of Meeting agenda and invitation to Shareholders' Meetings, stipulated that when convening a shareholders' meeting, the Board of Directors, a shareholder or shareholders collectively holding 3% or more of the shares shall have the right to propose additional items to meeting agenda. Such shareholders may submit proposals to the company at least 10 days prior to the meeting. The company should send the notice to announce the newly proposed meeting agenda within 2 days after receiving the proposal. The aforementioned shareholder has submitted the following agenda item to the shareholders' meeting on August 2, 2024 as follows:

LCS, as a publicly listed company, should determine remuneration for members of the Board of Directors based on the company's size, operational performance, and accountability of Board members. Given that Board members must invest considerable time and intellectual capacity in fulfilling their duties and bear decision-making risks, LCS should determine remuneration for Board members according to the principle of equal rights and obligations to ensure their active participation. Determining remuneration for Board members serves to incentivize them to perform their duties more effectively and participate more actively in the company's management and decision-making processes. Such remuneration arrangements can motivate Board members to dedicate themselves to LCS's development. Board member remuneration constitute an essential component of LCS's governance structure. Further, reasonable Board member remuneration standards will enhance LCS's management efficiency and promote sustainable growth.

The appropriate remuneration payment method for LCS's Board members is semi-annual disbursement based on LCS's business performance, following these payment basis:

1. Chairman of the Board of Directors: 35,000,000 Kip;
2. Vice Chairman of the Board of Directors: 30,000,000 Kip;
3. Board Members (6 persons): 25,000,000 Kip per person.

*Notes:

1. Since the Managing Director and Excutive Board members already receive executive bonuses, they will not receive additional remunerations as Board members.
2. After ensuring Board member remuneration payments, disbursements will be made on LCS's ROE being no less than 9% annually. In cases where annual ROE from operational results falls below 9%, no remuneration will be paid to Board members.
3. After this agenda item was approved, Board members' remuneration will be calculated from January 1, 2025 onward.

Therefore, the company hereby formally submit to the shareholders' meeting for consideration and approval of the aforementioned agenda item, together with the delegation of authority to the Executive Managing Directors to implement the actual execution.
